

Please accept my nomination for the School of Transportation/Specialty Faculty seat on the BCIT Education Council.

I am currently working in Student Financial Aid and Awards as Department Coordinator with June 2024 being my 45th year of full-time employment at BCIT. I am also proud that I am a BCIT alumna having graduated from the BCIT Management Systems program in 1992.

My involvement with Education Council over the past six terms has enabled me to be part of the decision-making process on behalf of the BCIT community (students, staff and faculty). Student Services plays an important role in supporting the delivery of quality education at BCIT. I strongly believe it is important that service and education work together to ensure that this quality is maintained.
