

## NOTICE OF CHANGES TO COURSE NUMBERING

Effective Fall 2015, all of the required BBA courses and many of the elective courses will be renumbered. This change is to align the BBA numbering with the institute policy on course numbering and to better reflect the level rigor that currently exists in the BBA degree program.

THIS CHANGE WILL HAVE NO IMPACT ON CURRENT STUDENTS. All students who completed BBA courses under the old numbering system will be “grandfathered” and be given full credit for work completed.

| OLD COURSE<br>NUMBERS       | NEW COURSE<br>NUMBERS<br>(FALL 2015) | Title  |
|-----------------------------|--------------------------------------|--|
| <b><i>BBA CORE</i></b>      |                                      |  |
| BUSA 5200                   | BUSA 7200                            | Business, Society and Ethics   |
| BUSA 6800                   | BUSA 7800                            | Management Strategy  |
| ECON 5570                   | ECON 7570                            | Financial Markets, Banking and the Macro-Economy*  |
| ECON 6500                   | ECON 8500                            | Managerial Economics   |
| OPMT 5701                   | OPMT 7701                            | Calculus for Management  |
| OPMT 5740                   | OPMT 7740                            | Integrated MIS   |
| OPMT 5751                   | OPMT 8751                            | Decision Analysis  |
| ORGB 5600                   | ORGB 8600                            | Implementing Strategic Change  |
| <b><i>BBA ELECTIVES</i></b> |                                      |  |
| BUSA 5810                   | BUSA 7810                            | Introduction to Business Management Strategies in Energy                                       |
| BUSA 5820                   | BUSA 7820                            | Business Management Strategies - The Impact of Energy Costs on the Bottom Line                 |
| BUSA 6810                   | BUSA 8810                            | Advanced Business Strategies in Carbon Management, Renewable Energy and Demand Side Management |
