

STUDY ABROAD PROGRAM

Winter Catalogue 2025

As a free mover, you can build a custom curriculum with up to 12 undergraduate credits or 9 graduate credits listed in this catalogue.

One Canadian credit is equivalent to one hour of lecture/lab weekly and approximately two ECTS in the European framework. Refer to [Course Outlines](#) from previous terms to understand the content, prerequisites, learning outcomes, etc. You may share these contents with your home university to ensure they meet the credit transfer requirement.

Course Selection Guide

- **Code starts with 1 or 2** (e.g. OPMT 1170 and FMGT 2701) requires no or minimal knowledge in the subject area.
- **Code starts with 3 or 4** (e.g. BUSA 3515) requires foundational knowledge in the subject area, typically for students in third semester or above.
- **Code starts with 5+** (e.g. BABI 7800) requires profound knowledge in the subject area, typically for students in final undergraduate semesters.
- **Code starts with 9** (e.g. GLBL 9030) is for graduates with a degree in the subject area.
- **Course title with *** – half-term course that runs for 2 months only. It can be either Jan-Mar or Mar-May.

For the best learning experience, make sure you...

- **meet the prerequisites** – provide additional proof (course outline, certificate, work experience, etc.) if your transcript alone does not indicate you have the skills and knowledge.
- **choose wisely** according to your academic needs and level. Pay attention to the number of credits each course bears if you intend to transfer credits back home.
- **focus on 1-2 program areas** to minimize time conflicts, maximize chances of getting a seat, and give yourself more opportunities to interact with the same cohorts.

Note: Courses have limited seats, and that acceptance into the course is on a case-by-case basis so please always provide 8 preferred courses in the *Course Selection Form* to allow flexibility when we build your timetable. Contact studyhere@bcit.ca if you have questions.

Contents

1. General introductory courses for all disciplines	1
2. Accounting, Finance + Insurance	1
2.1. Accounting and Finance	1
2.2. General Insurance and Risk Management	2
