

The BCIT COVID-19 Go-Forward Plan outlines the risk assessments, control measures, and the organizational process for our safe return to campus. All returning programs/courses must adhere to this process. Please refer to the <u>BCIT COVID-19 Go-Forward Plan</u> for additional information.

CONTACT INFORMATION

Course/Program Name:	Cardiovascular Perfusion								
Proportion of program offered on campus:	Five of thirteen courses will have some 'on campus' activity between the dates below								
Start date:	March 22/21		End date:	March 26/21					
# of students:	10 total (5 per lab session)		# of employees:	2					
Completed by:	Name Robin Wolfe	Position Program	Head	Date November 25/21					

ROOM INFORMATION

In this section, please identify all of the rooms that will be used by this returning program/course. NOTE: Common areas are covered by the BCIT COVID-19 Go-Forward Plan.

Campus/ Building	Room Number Floor Plans found here	Type of Space Include washrooms and breakout rooms	Capacity Current capacity due to COVID-19
ATC	262	Perfusion Lab	5 students , 1 instructor
ATC	284	Additional classroom utilized for lab	5 students, 1 instructor

RATIONALE FOR ON-CAMPUS ACTIVITY

Please provide a short description explaining the need for students to be on campus. Your narrative should be focused on the practical elements of the program or activity that are critical to achieving learning outcomes, and why on campus components cannot be replicated in an online or alternative environment (e.g. student bringing learning equipment home).

Cardiovascular Perfusion students need to learn how to operate the heart-lung bypass machine (HLM) to manage the physiologic and metabolic demands of the patient while the cardiac surgeon operates on the heart. To prepare for clinical rotations, perfusion students need to practice the following:

- 1. Set-up and prime the HLM in preparation for putting the patient on bypass.
- 2. Manage the patient during the surgery (use of simulator)
- 3. Recognize and react to emergency situations (use of simulator)
- 4. Practice on auxiliary equipment (ECMO, balloon pumps, ACT machines, etc) that students are exposed to during clinical rotations

The hands-on application of knowledge and problem solving skills cannot be replicated in an online or alterative environment.

CONTROL MEASURES

COVID-19 SAFETY PLAN: CONTROL MEASURES CHECKLIST

Directions for completing a Safety Plan:

- 1. First step of this process is to review the <u>BCIT COVID-19 Go-Forward Plan</u> as the overall planning document for this process.
- 2. Use this checklist as a tool to assess COVID-19 control measure preparedness for students and employees and the spaces they will be using. Refer to the BCIT COVID-19 Go-Forward Plan for standardized safety guidelines and procedures.
- 3. For each control measure, state the details. If the control measure is a 'No' or 'NA', please provide a brief explanation.
- 4. The manager requests all PPE requirements by submitting this draft Safety Plan to the PPE@bcit.ca.
- 5. Implement all the safety measures in this Safety Plan.
- 6. The manager completes a site visit to ensure all control measures and safety supplies are in place.
- 7. The manager signs the completed Safety Plan and submits it to returntocampus@bcit.ca for approval.
- 8. Once approved, the COVID-19 Safety Plan is posted in all work areas identified within this plan.

Note: The workspaces cannot be used until all applicable control measures are in place and Safety Plan is approved. For additional resources the <u>Risk</u> <u>Assessment Controls Guidance and Hierarchy of Controls</u>. For assistance email <u>ssemohs@bcit.ca</u>.

#	Control Measure	Yes	No	NA	Details (as per Directions)
ELIM	INATION				
1.	Room(s) set up to allow for 2 metres physical distancing during instruction and practice. Note: Contact returntocampus@bcit.ca for room capacity and layout if needed.				Exceptions allowed as per BCIT COVID-19 Go-Forward Plan, Risk Matrix Summary (explain): Each HLM is spaced least 2 meters distance apart, which keeps students properly distanced from each other. However, since 2 meters distance cannot always be maintained between the students and the lab instructor, everyone in the room will wear PPE. The PPE includes disposable mask, disposable gloves, and eye protection. Students do not need to physically touch one another during the labs so gowns are not required.
2.	Demonstration, work and assessment stations are set-up to allow for 2 metres physical distancing.				Exception allowed as per <u>BCIT COVID-19 Go-Forward Plan</u> , Risk Matrix Summary (explain): Each HLM will be at least 2 meters distance apart, which keeps students properly distanced from each other. However, since 2 meters distance cannot always be maintained between the students and the lab instructor, everyone in the room will wear PPE. The PPE includes disposable mask, disposable gloves, and eye protection.
3.	Identified area(s) where students wait outside of teaching space until allowed inside by instructor.	\boxtimes			The group of 5 students are instructed to enter the room at their start time and to maintain 2 meter distance from each other. A PPE doffing station is placed just inside the entrance.
4.	Work has been scheduled to minimize numbers of individuals on campus at one time.	\boxtimes			The 10-student cohort is divided into two groups of 5 students. One group of 5 students will attend a 4-hour morning lab session and the other group of 5 students will attend a 4-hour afternoon lab session.
5.	In shared spaces, safety protocols have been put in place to reduce close contact between users.	\boxtimes			All students will wear PPE for the duration of the lab session
6.	Movement within the room is identified, such as with directional arrows, for walkways and entrances/exits.	\boxtimes			The room is configured such that the student dons PPE upon entering the room then moves to the HLM designated to them for that lab session
7.	Water fountains are put out of service, and only touchless water bottle filling station available.			\boxtimes	Located in hallway. This is a common areas covered by the BCIT COVID-19 Go-Forward Plan.
8.	Mobile fans have been removed or put out of service.			\boxtimes	The lab does not have mobile fans
7.	Washrooms have been identified.	\boxtimes			If yes, Washroom occupancy limit2_
8.	Break area(s) for student use have been identified.			\boxtimes	If yes, what control measures are in place to maintain physical distancing? Occupancy Limit If there is an occupancy limit, is sign posted? Y \square N \square

SSEM, OHS Division COVID-19 Safety Plan Date: July 21, 2020 Page 3 of 8

#	Control Measure	Yes	No	NA	Details (as per Directions)
9.	Break areas for employee use have been identified.			\boxtimes	If yes, what control measures are in place to maintain physical distancing? Occupancy Limit If there is an occupancy limit, is sign posted? Y \square N \square
10.	Other:	\boxtimes			Lab sessions have been condensed to 4 hr sessions so a lunch break is not
					required for students. The lab instructor will have a 30 minute break between
					lab sessions. No students are present during this break.
ENG	INEERING CONTROL MEASURES				
11.	Barriers are implemented to separate work areas or walk ways,			\boxtimes	Barriers not required as all students and faculty will wear PPE during the entire
	when physical distancing not practical.				duration of the lab
12.	Barriers are stable and do not introduce other safety hazards,			\boxtimes	
	e.g. tripping.				
13.	The impact on ventilation requirements have been considered if			\boxtimes	Complete a <u>Facilities and Campus Development work requisition</u> for assessment, as needed.
	there's been a significant use change for the instructional space.				needed.
	Other:				
SIGN	IAGE (ADMINISTRATIVE) Signage is available @ <u>BCIT onlii</u>	ne Inve	ntory.	Guid	elines for posting signs are available on <u>ShareSpace</u> .
13.	Posted: Physical distancing (2 m) sign(s) Item 1A	\boxtimes			Posted in the lab and throughout the building
14.	Posted: Hand washing sign(s) Item 29B	\boxtimes			Posted in the washroom near rm 262
15.	Posted: Health screen sign(s) Item 3C	\boxtimes			Sign will be posted at the entrance of the lab
16.	Posted: Hand washing sink location sign(s) Item 14A		\boxtimes		Students are aware that sinks are located in the washroom near rm 262
17.	Posted: Hand sanitizing station location sign(s) Item 13A			\boxtimes	Not needed. Students can see hand sanitizing station located at entrance of
	6				room
18.	Posted: Protect yourself sign(s) Item 21A	\boxtimes			Sign will be posted in lab
19.	Posted: Occupancy limit of this room sign(s) Item 37A		\boxtimes		Student lab sets are below room occupancy limits. Lab sessions will be
					monitored by faculty to ensure compliance.
20.	Posted: Other signs				Please list:
ORIF	LENTATION AND TRAINING (ADMINISTRATIVE)				
21.	Routine safety discussions held to review control measures and	\boxtimes			This will be discussed by program faculty prior to March 19 th .
	safety protocols.				This will be discussed by program faculty prior to march 15
22.	All students have completed the online COVID-19 Pandemic On-				How will compliance be checked: All Perfusion students completed this prior to
	Campus Guidelines training.				their first lab on campus. Students emailed certificate of completion to Program
					Head.
23.	COVID-19 safety Site orientation for students has been	\boxtimes			Procedure for orientation found <u>here</u> .
	developed and posted in the Learning Hub.				Student COVID-19 Orientation Checklist found <u>here</u> .

#	Control Measure	Yes	No	NA	Details (as per Directions)
24.	All employees have completed the online BCIT Pandemic	\boxtimes			
	Exposure Control Plan Training.				
25.	All employees have completed the online New Employee	\boxtimes			New and Returning Employee Orientation Checklist found <u>here</u> .
	Orientation module.				Each employee to save the checklist to their online New Employee Orientation course
26.	Other:				
RULI	ES AND GUIDELINES (ADMINISTRATIVE)				
27.	All unnecessary and self-serve items have been removed from	\boxtimes			Students bring their own pen/paper to make notes if needed.
	the spaces. e.g., pens, paper, etc.				
28.	Doors that students are to use to enter and exit have been	\boxtimes			Signs or arrows on the floor
	clearly identified.				
29.	Handouts, papers, and items are not physically provided to	\boxtimes			If items are provided, they are cleaned between student use or disposed, or other control
	students.				measures are in place – Describe: All other learning material is available in students'
					clinical course in the Learning Hub
30.	Students have dedicated tools/equipment, e.g., items are not		\boxtimes		Each Heart Lung Machine (HLM) will be assigned to a student for their lab
	shared between students.				session. The same HLM will be used by another student in the afternoon lab
					session.
					Students are responsible for cleaning the HLM/chair they used during the
		<u> </u>			session.
31.	If cleaning common touch points or tools/equipment not	\boxtimes			Explain: Students will wear disposable gloves during lab sessions
	practical, then it is identified when hands are washed/sanitized				
22	before and after use.				
32.	Work spaces/stations are dedicated for an individual or group	\boxtimes			Students will use their own HLM and chairs during the morning lab session.
	use and not shared with others.				These same HLM's and chairs will be used by a different student attending the
					afternoon lab session. Students are responsible for cleaning the HLM/chair they
22	Circle was disconnelled and describe				used during the session.
33.	Single-use (disposable) products are used where feasible.				
34.	Measures are in place to accommodate student sick at home.	\boxtimes			Accommodation plan: If a student is sick, they are instructed to stay home. Missed
	·				labs, assessments or required competencies will be made up at later date, when
					the student is healthy. This will be reviewed on a case by case basis.
35.	Procedures in place to screen students on a daily basis.	\boxtimes			The <u>health screen</u> poster is available for reference and is posted on building doors.
					Students and employees are expected to self assess daily, and the <u>BCCDC self-assessment</u>
					tool can be used to support this.
36.	There is a procedure in place if a student or employee becomes				Refer to the <u>COVID-19 Pandemic Scenario Playbook</u> for more information. If the person is
	ill on campus.				reporting symptoms, ask them to avoid others and return home. If they require
					immediate medical attention, call First Aid and 911.

#	Control Measure	Yes	No	NA	Details (as per Directions)
37.	There are procedures in place if a student or employee travels before coming to campus, or has been in close contact with	\boxtimes			Refer to the <u>COVID-19 Pandemic Scenario Playbook</u> for more information. Confirm if the person is aware of self-isolation requirements and protocols.
	someone who has tested positive for COVID-19.				
38.	Provisions made for students to maintain same lab/class cohort	\boxtimes			Students remain in their same group of 5 for the duration of week long lab
	throughout the Term.				
39.	Other:				
PERS	ONAL PROTECTIVE EQUIPMENT (PPE). Refer to the PPE F	lowcha	rt to d	leterm	ine what PPE is required for COVID-19 purposes.
40.	Appropriate PPE for the hazards of employee and student tasks	\boxtimes			Students and faculty will wear PPE for the duration of the 4-hour lab session.
	are available to be provided (non-COVID-19 related ppe).				PPE includes: masks, gloves and goggles
41.	Training is provided for the above PPE to students and	\boxtimes			Note: all students attending the lab are already health care providers
	employees.				(Respiratory Therapists and ICU Nurses) that regularly wear PPE equipment in
					their respective work environments. BCIT Clinical Instructor will review with the students the proper usage of PPE on day 1 of the lab though.
42.	Appropriate PPE for COVID-19 is available to be provided to	\boxtimes			Based on circumstances allowed for in the <u>BCIT COVID-19 Go-Forward Plan</u> , Risk
	students and employees. Supply requests emailed to				Assessment Matrix Summary.
	ppe@bcit.ca.				Program has a sufficient supply of mask, hand sanitizer, and disinfectant wipes
					left over from last lab session in August and November.
43.	PPE safe <u>donning</u> , <u>doffing</u> , <u>disposal</u> , <u>and disinfecting instructional</u>	\boxtimes			Post applicable signs in a visible location if ppe required.
	materials are available for students and employees.				Use the <u>Student Orientation checklist</u> to assist orientation/training by instructors.
				L	Use the <u>Employee Orientation checklist</u> to assist orientation/training by their supervisors.
44.	Other:				
CLEA	NING				
45.	Facilities is aware of the cleaning needs for the area. Facilities work requests have been submitted.	\boxtimes			Cleaning includes common touch points and appropriate frequency for the area. This includes high touch areas. Provide FCD work request number(s).
					Submitted to Facilities: The Perfusion program's lab is Mon - Fri, March 22
					- 26/21. Will cleaning staff please clean the common touch areas in
					classrooms 262 and 284 (doors handles, light switches, floors, and
					student washrooms) at the end of each day (5pm or later). Students and
					faculty will clean all equipment inside the rooms. 1457883

SSEM, OHS Division COVID-19 Safety Plan Date: July 21, 2020 Page 6 of 8

#	Control Measure	Yes	No	NA	Details (as per Directions)	
46.	Training will be provided to faculty and students performing cleaning duties and cleaning materials have been provided.				Cleaning Standard Operating Procedures have been located here . What are the cleaning products/materials: Lysol disinfectant wipes used to clean HLM, chairs and accessory equipment	
					What ppe is required: gloves	
47.	Assessment of sufficient number of hand wash stations conducted, and an appropriate number of handwashing stations are available				Consider time it will take for hand washing to take place, to determine what is e.a. sufficient number of hand wash stations. Some areas find a ratio of 8:1, students to sink, effective. The minimum amount of hand washing required is once before class starts, after class ends and before and after breaks.	
48.	Handwashing station(s), stocked, easily accessed, and have been identified to students and employees.				Sink Location: Washrooms, 2^{nd} floor, close to room 262 Stocked with soap Y \boxtimes N \square paper towel Y \boxtimes N \square	
49.	Hand sanitizing station(s), stocked, and have been identified to students and employees.				ABHS (Alcohol-Based Hand Sanitizer): PPE table at entrance to lab Will hand sanitizer be refilled by department: Y ☒ N ☐ If No, describe:	
50.	All Safety Data Sheets (SDS) and cleaning procedures used are found here">here .	\boxtimes			If not, describe:	
51.	The area(s) have been decluttered so that cleaning is simplified.	\boxtimes				
52.	Barrier cleaning process has been arranged if the barrier(s) could become contaminated.			\boxtimes	Barriers can become contaminate if they are a touch point or if the contaminated with droplets by e.g. coughing or sneezing.	
53.	Common touch points and tools/equipment that must be shared are identified and cleaned between students and classes.				Cleaning/sanitizing procedures for common touch points and shared items are posted Students are responsible for cleaning the HLM and chair they used during the session.	
54.	Storage space for personal articles have been identified and are cleaned regularly.				Who will clean: Where is the storage: Storage is in the lab, against the wall and out of the way.	
55.	Other:					
AUD	IT AND CONTINUOUS IMPROVEMENT					
56.	There is a plan to conduct <u>regular inspections</u> of all control measures and safety protocols to ensure they are in place.				The Program Head will post the plan and will conduct a weekly inspection. The Clinical Instructor will conduct daily inspections.	
57.	Audits of inspections are planned to ensure that control measures continue to be effective.	\boxtimes			Who conduct the audits and how often? The Program Head will post the plan and will conduct a weekly inspection.	

APPROVAL

All COVID-19 risk control measures for this campus activity are in place.
