RATIONALE FOR ON-CAMPUS ACTIVITY

<p>Please provide a short description explaining why you need employees on campus. Your narrative should be focused on the practical elements of what the employees will be doing.</p> <p>Delivery of counselling services requires a controlled environments that allows for privacy and freedom from distraction in order for the counselling therapist to provide quality care in an ethical manner. Some employees face barriers to accessing such a workspace environment while working from home (eg. family, noise, issues with privacy/confidentiality) that can impact their ability to provide service to students remotely. In order to provide continuity of service, counsellors may need to work from the CSD offices providing remote services to students (by phone or video). Clinical Counsellor ethical codes also require continuity of counselling services to students. Additionally, there are certain technical duties (computer hardware and software updates) that must be completed on campus occasionally in order to maintain our business practices.</p>
