

The BCIT COVID-19 Go-Forward Plan outlines the risk assessments, control measures, and the organizational process for our safe return to campus. All returning programs/courses must adhere to this process. Please refer to the <u>BCIT COVID-19 Go-Forward Plan</u> for additional information.

#### **CONTACT INFORMATION**

Course/Program Name:	Joinery Apprentice Level 1, 2, 3, 4 and Foundation Training						
Proportion of program offered on campus:	(3) weeks of a (6) week blended program for Apprentice Level 1, 2, 3, 4 (1) Foundation program will be a blend of online and essential practical skills.						
Start date:	January 4, 2021 Revised February 10, 2021		End date:	Ongoing			
# of students:	32		# of employees:	7 staff, 3 others			
Completed by:	Name Paul Schmid	Position <b>Departme</b>	ent Head	Date  January 5, 2021  February 10, 2021			
Replaces RTC #:	#10						

#### **ROOM INFORMATION**

In this section, please identify all of the rooms that will be used by this returning program/course. NOTE: Common areas are covered by the BCIT COVID-19 Go-Forward Plan.

Campus/ Building	Room Number Floor Plans found here	Type of Space Include washrooms and breakout rooms	Capacity Current capacity due to COVID-19
NEO2	101	Main Shop	32 students, 7 staff, 3 others
	103	Washroom	1
	104	Washroom	1
	106	Office	1
	107	Common Area	2
	108	Department Head Office	2
	110	Tool Room	1
	206	Office	1
	207	Office	1
	211	Office	1
NE01	329	Drafting Classroom	20

#### RATIONALE FOR ON-CAMPUS ACTIVITY

Please provide a short description explaining the need for students to be on campus. Your narrative should be focused on the practical elements of the program or activity that are critical to achieving learning outcomes, and why on campus components cannot be replicated in an online or alternative environment (e.g. student bringing learning equipment home).

All levels of Joinery Apprentices require 3 weeks of practical training in order to meet the requirements of the ITA.

There will only be one Apprenticeship class on the shop floor at any given time in conjunction with one Foundation class.

The Foundation class will be blended model both on-line and in-shop practical. When online the shop may be scheduled for an additional apprenticeship class. The shop will never exceed more than 2 classes equaling a maximum of 32 students.

The use of NE01 – 329 will be for drafting purposes only and be set up for a maximum of 20 people.

#### **CONTROL MEASURES**

#### COVID-19 SAFETY PLAN: CONTROL MEASURES CHECKLIST

#### **Directions for completing a Safety Plan:**

- 1. First step of this process is to review the <u>BCIT COVID-19 Go-Forward Plan</u> as the overall planning document for this process.
- 2. Use this checklist as a tool to assess COVID-19 control measure preparedness for students and employees and the spaces they will be using. Refer to the BCIT COVID-19 Go-Forward Plan for standardized safety quidelines and procedures.
- 3. For each control measure, state the details. If the control measure is a 'No' or 'NA', please provide a brief explanation.
- 4. The manager requests all PPE requirements by submitting this draft Safety Plan to the PPE@bcit.ca.
- 5. Implement all the safety measures in this Safety Plan.
- 6. The manager completes a site visit to ensure all control measures and safety supplies are in place.
- 7. The manager signs the completed Safety Plan and submits it to <u>returntocampus@bcit.ca</u> for approval.
- 8. Once approved, the COVID-19 Safety Plan is posted in all work areas identified within this plan.

Note: The workspaces cannot be used until all applicable control measures are in place and Safety Plan is approved. For additional resources the <u>Risk</u> Assessment Controls Guidance and Hierarchy of Controls. For assistance email ssemohs@bcit.ca.

#	Control Measure	Yes	No	NA	Details (as per Directions)						
ELIN	ELIMINATION										
1.	Room(s) set up to allow for 2 metres physical distancing during instruction and practice.  Note: Contact returntocampus@bcit.ca for room capacity and layout if needed.				Exceptions allowed as per <u>BCIT COVID-19 Go-Forward Plan</u> , Risk Matrix Summary (explain): Where this is not possible, barriers will be installed.  We have also contacted "Return to Campus" for room capacity.						
2.	Demonstration, work and assessment stations are set-up to allow for 2 metres physical distancing.				Exception allowed as per <u>BCIT COVID-19 Go-Forward Plan</u> , Risk Matrix Summary (explain):						
3.	Identified area(s) where students wait outside of teaching space until allowed inside by instructor.	$\boxtimes$									
4.	Work has been scheduled to minimize numbers of individuals on campus at one time.	$\boxtimes$									
5.	In shared spaces, safety protocols have been put in place to reduce close contact between users.	$\boxtimes$									
6.	Movement within the room is identified, such as with directional arrows, for walkways and entrances/exits.	$\boxtimes$			Signs or arrows on the floor identifying directions. Lines on floor to signify walkways.						
7.	Water fountains are put out of service, and only touchless water bottle filling station available.	$\boxtimes$									
8.	Mobile fans have been removed or put out of service.	$\boxtimes$									
7.	Washrooms have been identified.	$\boxtimes$			If yes, Washroom occupancy limit <u>1</u>						
8.	Break area(s) for student use have been identified.				If yes, what control measures are in place to maintain physical distancing? Each student can break at their workstation or use the cafeteria in NE01.  Occupancy Limit17 If there is an occupancy limit, is sign posted? Y Ø N □						
9.	Break areas for employee use have been identified.				If yes, what control measures are in place to maintain physical distancing?  Staff break in their individual offices. Occupancy limit signs have been posted in all offices in NEO2.  Occupancy Limit If there is an occupancy limit, is sign posted? Y Ø N □						
10.	Other:			$\boxtimes$							
ENG	INEERING CONTROL MEASURES										
11.	<u>Barriers</u> are implemented to separate work areas or walk ways, when physical distancing not practical.	$\boxtimes$			Floor plans included.						
12.	Barriers are stable and do not introduce other safety hazards, e.g. tripping.

27.	All unnecessary and self-serve items have been removed from	$\boxtimes$			All supplies asked for prior to class and stocked at each workspace.				
	the spaces. e.g., pens, paper, etc.								
28.	Doors that students are to use to enter and exit have been	$\boxtimes$							
	clearly identified.								

#	Control Measure	Yes	No	NA	Details (as per Directions)
29.	Handouts, papers, and items are not physically provided to students.				If items are provided, they are cleaned between student use or disposed of, or other control measures are in place – Describe: If handouts are provided they are prepared in advance and distributed by an Instructor following proper procedures eg. Hand washing and sanitizing
30.	Students have dedicated tools/equipment, e.g., items are not shared between students.				There are some dedicated portable power tools that students use for the day before returning them to a designated cart for sanitization. Once completed they are returned to the toolroom. Some stationary equipment must be shared however these machines are sanitized between uses by cleaners. Students wash their hands frequently.
31.	If cleaning common touch points or tools/equipment not practical, then it is identified when hands are washed/sanitized before and after use.				Explain: Students are required to wash their hands after using common tools. This is covered and reinforced in a daily toolbox meeting that occurs at the beginning of each day.
32.	Work spaces/stations are dedicated for an individual or group use and not shared with others.				Students have their own bench/workstation that are not shared.
33.	Single-use (disposable) products are used where feasible.	$\boxtimes$			
34.	Measures are in place to accommodate student sick at home.	$\boxtimes$			Accommodation plan: Depending on the amount of time missed students will be required to reschedule training for a later date.
35.	Procedures in place to screen students on a daily basis.				The <u>health screen</u> poster is available for reference and is posted on building doors.  Students and employees are expected to self-assess daily, and the <u>BCCDC self-assessment</u> tool can be used to support this. This is covered in a daily toolbox meeting that occurs at the beginning of each class. This is also reinforced through signage.
36.	There is a procedure in place if a student or employee becomes ill on campus.				Refer to the <u>COVID-19 Pandemic Scenario Playbook</u> for more information. If the person is reporting symptoms, ask them to avoid others and return home. If they require immediate medical attention, call 911 and First Aid.
37.	There are procedures in place if a student or employee travels before coming to campus, or has been in close contact with someone who has tested positive for COVID-19.				Refer to the <u>COVID-19 Pandemic Scenario Playbook</u> for more information. Confirm if the person is aware of self-isolation <u>requirements</u> and <u>protocols</u> .
38.	Provisions made for students to maintain same lab/class cohort throughout the Term.	$\boxtimes$			
39.	Other:			$\boxtimes$	
PERS	SONAL PROTECTIVE EQUIPMENT (PPE). Refer to the PPE F	lowcha	<u>rt</u> to d	leterm	nine what PPE is required for COVID-19 purposes.
40.	Appropriate PPE for the hazards of employee and student tasks are available and will be provided (non-COVID-19 related ppe).	$\boxtimes$			List the ppe and tasks/activities it is required for, and provide the quantity and unit of measure, if applicable (e.g. 2 boxes of 20 each box):  Safety Glasses, non-medical disposable mask, disposable gloves are provided as needed.
41.	Training is provided for the above PPE to students and employees.	$\boxtimes$
