### RATIONALE FOR ON-CAMPUS ACTIVITY

Please provide a short description explaining why you need employees on campus. Your narrative should be focused on the practical elements of what the employees will be doing.

During the pandemic the executive and staff will need to work on campus from time to time. This is for accessing materials, equipment, and supplies from their offices. For the use of the multi-functional printing devices for large print jobs, i.e., Board packages, major program reviews, etc. The onboarding of new employees to provide their laptops, cell phones, etc. For checking the weekly mail, and on campus deliveries, etc.

### CONTROL MEASURES

#### COVID-19 SAFETY PLAN: CONTROL MEASURES CHECKLIST

##### Directions for completing this Safety Plan:

1. First step of this process is to review the [BCIT COVID-19 Go-Forward Plan](#) as the overall planning document for this process.
2. Use this checklist as a tool to assess COVID-19 control measure preparedness for employees and the spaces they will be using. Refer to the BCIT COVID-19 Go-Forward Plan for standardized safety guidelines and procedures.

Notes: This office block can accommodate one guest per workstation as noted. Meeting room 3307 can accommodate four users with controlled entry and egress conditions, where the user seated furthest to the door would have to enter first, and the user closest to the door enters last; exit procedure would occur in reverse order where the person last seated would be first to exit.

## SW01-3183 Executive Meeting Room

Notes: This meeting room can accommodate four users with controlled entry and egress conditions, where the user seated furthest to the door would have to enter first, and the user closest to the door enters last; exit procedure would occur in reverse order where the person last seated would be first to exit. While additional users *are* technically possible within physical distancing requirements, travelling in and out of the room may present a risk if a user must exit for a personal emergency.
