

## BCIT COVID-19 SAFETY PLAN ACADEMIC SPACES

The BCIT COVID-19 Go-Forward Plan outlines the risk assessments, control measures, and the organizational process for our safe return to campus. All returning programs/courses must adhere to this process. Please refer to the [BCIT COVID-19 Go-Forward Plan](#) for additional information.

## COVID-19 SAFETY PLAN ACADEMIC SPACES

### RATIONALE FOR ON-CAMPUS ACTIVITY

Please provide a short description explaining the need for students to be on campus. Your narrative should be focused on the practical elements of the program or activity that are critical to achieving learning outcomes, and why on campus components cannot be replicated in an online or alternative environment (e.g. student bringing learning equipment home).

This is a full-time program in the SOHS with all lectures on-line. The lab-component of ENPY 1153 introduces the students to the skills and equipment that will be applied in the clinical portion of the program following term 1 and term 2. Students will be given the time and opportunity to practice the introductory skills of electroencephalograms. During this lab, students learn how to measure and **apply electrodes using each other as patients on who they practice**. This is a very challenging skill which can only be learned in person with repeated practice. Furthermore, this lab allows students to put into practice the academic knowledge they have learned during online courses offered concurrently. This skill must be successfully mastered before the students eventually return to clinical practicums.

Students will complete their laboratory written exam from 12:00 3:00pm on November 30 in NE1-104 and 106. They are unable to use their lab for this exam as it has no tables – only stretchers. There will be 6 students in each room for a total of 12 students. Each room will be supervised by an instructor. During this time, all individuals will wear medical masks. The rooms will be opened at 1130 and closed at 1530. Students will arrive and space themselves out at distances greater than 2m through out the lecture room as directed by the two instructors present. No school computers will be required.

### CONTROL MEASURES

#### COVID-19 SAFETY PLAN: CONTROL MEASURES CHECKLIST

##### Directions for completing a Safety Plan:

1. First step of this process is to review the [BCIT COVID-19 Go-Forward Plan](#) as the overall planning document for this process.
2. Use this checklist as a tool to assess COVID-19 control measure preparedness for students and employees and the spaces they will be using. Refer to the [BCIT COVID-19 Go-Forward Plan](#) for standardized safety guidelines and procedures.
3. For each control measure, state the details. If the control measure is a 'No' or 'NA', please provide a brief explanation.

## COVID-19 SAFETY PLAN ACADEMIC SPACES

4. The manager requests all PPE requirements by submitting this draft Safety Plan to the [PPE@bcit.ca](mailto:PPE@bcit.ca).
5. Implement all the safety measures in this Safety Plan.
6. The manager completes a site visit to ensure all control measures and safety supplies are in place.
7. The manager signs the completed Safety Plan and submits it to [returntocampus@bcit.ca](mailto:returntocampus@bcit.ca) for approval.
8. Once approved, the COVID-19 Safety Plan is posted in all work areas identified within this plan.

Note: The workspaces cannot be used until all applicable control measures are in place and Safety Plan is approved. For additional resources the [Risk Assessment Controls Guidance and Hierarchy of Controls](#). For assistance email [ssemohs@bcit.ca](mailto:ssemohs@bcit.ca).

<b>ELIMINATION</b>					
1.	Room(s) set up to allow for 2 metres physical distancing during instruction and practice. <b>Note:</b> Contact <a href="mailto:returntocampus@bcit.ca">returntocampus@bcit.ca</a> for room capacity and layout if needed.	<input checked="" type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>	Medical-grade masks, face shields and gloves will be worn by both students and instructors during the entire duration of the lab. As students must practice on each other in order to learn how to apply electrodes to each other's heads, 2m distancing cannot take place. This is an essential skill that can only be accomplished with in-person, hands-on practicing. Our small group of 12 will exist as a cohort and will never mingle with other BCIT students.  During the examination on November 30, students will write the exam in NE1-104 and NE1-106 (6 students in each room) and will be supervised by an instructor in each room. All individuals will space themselves 2m apart.
2.	Demonstration, work and assessment stations are set-up to allow for 2 metres physical distancing.	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>	Exception allowed as per <a href="#">BCIT COVID-19 Go-Forward Plan</a> , Risk Matrix Summary (explain): November 30 <sup>th</sup> only.
3.	Identified area(s) where students wait outside of teaching space until allowed inside by instructor.	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	Students will arrive at 8:45 and then proceed to NE1-103 to change into scrubs (this room will be empty at that time). Only 6 will be allowed in at a time. The instructor will meet the students at the appropriate NE1-entrance way and will count how many can proceed inside. If the instructor is not there, the students will know they can proceed directly inside. As they cannot congregate in the halls, they will be encouraged to not arrive early but can go directly to NE1-103 anytime after 8:40 to change. Class does not start until 9am. They will then return to lab. Generally, only one student can leave the room at a time to use

					washroom. If more than that must leave the room, then returning person will knock before entering to clear doorway.  On November 30, students will arrive at 11:45 at the northwest NE1 entrance. They will walk down the hall and enter NE1-104 and NE1-106. Instructors will meet them in the hall and divide them into two groups of six for the written examination. When the exam is over, students will leave through the same entrance. They will continue to physically distance in the halls.
4.	Work has been scheduled to minimize numbers of individuals on campus at one time.	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	
5.	In shared spaces, safety protocols have been put in place to reduce close contact between users.	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
