

1.0 GENERAL**.1 References**

- .1 Section 06 40 00 Architectural Woodwork (Millwork).

.2 Design Requirements**.1 General:**

- .1 Materials and systems must be durable, easy to maintain, and where possible, able to be reused during renovations.

- .1 For renovation projects, consult with BCIT Facilities regarding the re-use of existing materials and equipment, and which if any, are to be turned over to BCIT Facilities.

.2 Recycling and Waste Management:**.1 Recycling and Waste Receptacles.**

- .1 Where recycling stations are deemed required, they shall be multi stream stations. Consult with BCIT Facilities as to the quantities required.

- .2 Request BCIT Recycling Centre Standards for millwork details from Project Liaison.

.3 Microwave Stations:

- .1 Where deemed required by BCIT, request BCIT Microwave Station Standards from Project Liaison.

- .2 There are two Standards, those for the public realm, and those for use within “private” areas such as staff lounges and offices.

.4 Print Stations:

- .1 Where deemed required by BCIT, request BCIT Print Station Standards from Project Liaison.

2.0 ADMINISTRATIVE AND SUBMITTAL REQUIREMENTS**.1 BCIT Submittals and Notifications**

- .1 Provide shop drawings and samples.
- .2 Provide maintenance instructions for specialty products, assemblies, and systems.
