

# BCIT Full-Time Bursary FALL 2023

## ELIGIBLE PROGRAMS and START DATES

### Technology Programs:

### Eligible Levels/Program Start Dates

|   |  |
|---|--|
| 3D Modeling, Art & Animation                                      | Sept. 6, 2022; May 1, 2023 start dates |
| Building Engineering/Building Science (Master of Applied Science) | Level 4                                |
| Building Science (Master of Engineering)                          | Level 4                                |
| Computer Information Technology                                   | Level 2; Level 4                       |
| Computer Systems Technology                                       | Level 2; Level 4                       |
| Construction Management (full-time)                               | Level 4                                |
| Electrical and Computer Engineering Technology                    | Level 2; Level 4                       |
| Electroneurophysiology  | Level 2                                |
| Graphic Design (2 term and 3 term format)                         | May 1, 2023; May 5, 2023               |
| Medical Laboratory Science  | Level 4                                |
| Medical Radiography   | Level 6                                |
| New Media Design & Web Development                                | Level 2; Level 4                       |
| Nursing   | Level 2; Level 5; Level 8              |

### Trades Programs:

### Eligible Program Start Dates

|   |                               |
|---|-------------------------------|
| Aircraft Gas Turbine Technician                                       | April 3, 2023; May 29, 2023   |
| Aircraft Maintenance Engineer Category E                              | August 22, 2022               |
| Aircraft Maintenance Engineer Category M                              | August 29, 2022; May 8, 2023  |
| Airline and Flight Operations: Commercial Pilot – Fixed Wing          | May 1, 2023                   |
| Automotive Service Technician and Operations                          | January 9, 2023               |
| Automotive Technician Foundation                                      | July 4, 2023                  |
| CNC Machinist Technician  | January 4, 2022               |
| Electrical Foundation   | June 19, 2023; July 31, 2023  |
| Heating, Ventilation, Air Conditioning and Refrigeration (Technician) | April 4, 2022                 |
| Heavy Duty Truck Technology   | March 14, 2023                |
| Heavy Mechanical Trades Foundation                                    | May 15, 2023                  |
| Ironworker Foundation   | July 10, 2023                 |
| Marine Engineering  | September 1, 2022             |
| Welder Foundation   | June 19, 2023; August 8, 2023 |

**APPLICATION DEADLINE:  
OCTOBER 30, 2023**
