Student Name _____   **Date** _____   **Level** _____

Technologist _____   **Validating Initials** _____   **Clinical Site** _____

*Importance is placed on the skills and behaviours listed below. Indicate the consistency of the student's skill or behavior by identifying those which are demonstrated more than 75% of the time as "Satisfactory" by placing an "**S**" beside that behavior or skill. Place a "**D**" by those skills with less than **75%** consistency ("In Development"). Please use N/A if attribute does not apply. Attributes with an "*" require 100% proficiency and consistency to be considered satisfactory.*

2 Accolades: _____

_____

2 Suggestions: _____

_____

PROCEDURE PREPARATION

_____	Presets average technique	_____	Verifies identification and introduces self and tech/CI *
_____	Correlates clinical info to exam	_____	Confirms patient exam and prep
_____	Reviews previous images and reports	_____	Records additional hx
_____	Plans procedure	_____	Explains procedure clearly to patient
_____	Collects auxiliary supplies or positioning aids	_____	Demonstrates understanding of procedure
_____	Enters patient information correctly		

_____

_____

PROCEDURE/IMAGE ANALYSIS

_____	Aligns imaging system	_____	Recognizes artefacts
_____	Positions patient correctly	_____	Critiques within prescribed time
_____	Uses positioning aids as needed	_____	Recognizes correct exposure values on CR/digital
_____	Uses landmarks correctly	_____	Windows and applies post-processing algorithms correctly
_____	Uses markers correctly	_____	Determines if additional views required
_____	Uses appropriate techniques	_____	Repeat images correctly performed
_____	Verifies correct positioning and required structures	_____	Uses equipment correctly and safely
_____	Recognizes correct image quality	_____	Recognizes new situations
_____		_____	Adapts to situation

_____

_____

PATIENT CARE

_____	Prepares and assists with administering contrast correctly	_____	Respects patient diversity
_____	Observes vital status and initiates emergency procedures	_____	Ensures patient comfort
_____	Assesses patient condition/mobility; safely transfers patients	_____	Handles lines/tubes safely
_____	Adheres to standard precautions/isolation techniques	_____	Provides privacy

_____

_____

Formative Feedback – Technologist

RADIATION PROTECTION / POST PROCEDURES

____	Ascertains pregnancy status*	____	Provides post-procedural instructions if required
____	Initiates and completes documentation	____	Correctly dismisses patient
____	Uses shielding/collimation*	____	Cleans and prepares / equipment room for next case
____	Uses protective barriers/distance	____	Verifies image archival

_____

_____

PROFESSIONAL PRACTICE (Legal, Safe, Ethical)[PBP]

____	Accurate assessment of technologist's assistance with cases*	____	Performs procedures within the scope of practice*
____	Ensures technologist reviews images prior to sending to PACS*	____	Maintains confidentiality * (e.g., asks DOB privately)
____	Maintains professional conversations in front of patients	____	Accepts guidance and feedback graciously*
____	Adheres to BCIT and hospital policies*	____	Consistent safe practice
____	No inappropriate touching*	____	No personal cell phone, or social media use during shift

_____

_____

ACCOUNTABILITY [PBP]

____	Knows and follows department protocols	____	Always punctual, including breaks*
____	Accepts responsibility for actions	____	Informs staff of whereabouts

_____

_____

SELF CONFIDENCE [PBP]

____	Demonstrates confidence in own ability	____	Doesn't demonstrate over confidence
____	Seeks assistance only for new and challenging cases	____	No excessive "double" checking

_____

_____

ORGANIZATION & EFFICIENCY [PBP]

____	Demonstrates multi-skilling abilities	____	Prioritizes activities (L3 + 5)
____	Performs case in an organized and efficient manner		

_____

_____

INITIATIVE / TEAMWORK / COMMUNICATION [PBP]

____	Contributes to workflow	____	Is enthusiastic
____	Volunteers for all types of cases	____	Volunteers for lifts
____	Is perceptive to technologist's need for assistance (L3 + 5)	____	Looks for work during quiet time
____	Communicates effectively with patient, family members, health care personnel	____	Ensures room is stocked & necessary supplies available
