

Computer-Based Assessment for Sampling Personal Characteristics

The Casper Test – an online, open response situational judgment test (SJT)
[Snapshot](#) – a one-way video interview

All applicants to the BCIT Bachelor of Science in Nursing (BSN) program are required to complete an online assessment to assist with the selection process. Successful completion of a Casper Test **and Snapshot video** are mandatory in order to maintain admission eligibility.

The Casper Test is an online test which assesses for non-cognitive skills and interpersonal characteristics that we believe are important for success in the BSN program, and will complement the other tools that used for applicant screening. In implementing Casper and Snapshot, we are trying to further enhance fairness and objectivity in the student selection process.

In order to use these assessment tools (Casper and Snapshot), you will be responsible for securing access to a computer with audio capabilities, a webcam, and a reliable internet connection on your selected test date. Casper can be taken practically anywhere that you can satisfy the aforementioned requirements. No exceptions will be provided for applicants unable to take Casper online due to being located at sites where internet is not dependable due to technical or other factors.

Please go to takealtus.com/casper to sign up and reserve a test using your BCIT Student Number and a piece of government-issued photo ID. You will be provided with a limited number of testing dates and times. Please note that these are the only testing dates available for your Casper test. There will be no additional tests scheduled.

Please direct any inquiries on the test to support@takecasper.com. Alternatively, you may use the chat bubble in the bottom right hand corner of your screen on the takecasper.com website.

The Casper Test is comprised of 12 sections of video and written scenarios. Following each scenario, you will be required to answer a set of probing questions under a time contract. Each response is graded by a different rater, giving a very robust and reliable view of personal and professional characteristics important to our program. No studying is required for Casper, although you may want to familiarize yourself with the test structure at takealtus.com/casper, and ensure you have a quiet environment to take the test.

Casper Test results are only valid for a single application cycle – September to August.
