Acuity Insights Admissions Assessment

[Casper Test](#) – an online, open response situational judgement test (SJT)

All applicants to the BCIT Bachelor of Science in Nursing (BSN) program are required to successfully complete a **Casper Test**.

Casper is an online test which assesses for non-cognitive skills and interpersonal characteristics that we believe are important for success in the BSN program. Casper was implemented to further enhance fairness and objectivity in the student selection process.

To use this assessment tool, you will be responsible for securing access to a computer with audio capabilities, a webcam, and a reliable internet connection for your selected test date. Casper can be taken practically anywhere that you can satisfy the aforementioned requirements. No exceptions will be provided for applicants unable to complete the Altus Suite due to technical or other factors.

Go to www.takeCasper.com to sign up and reserve a test using your BCIT Student Number and a piece of government-issued photo ID. You will be provided with a limited number of testing dates and times. Please note that these are the only testing dates available for your Casper test. There will be no additional tests scheduled. Ensure you register using the exact name you used when you applied to BCIT.

Direct all inquiries to support@takecasper.com. Alternatively, you may use the chat bubble in the bottom right hand corner of your screen on the takecasper.com website.

To prepare for the Casper test, thoroughly read the information provided on the Acuity Insights website.

Casper results are only valid for a single application cycle – September to August.
