

The Casper Test - Computer-Based Assessment for Sampling Personal Characteristics

All applicants to the BCIT Medical Radiography program are required to complete an online assessment (Casper), to assist with the selection process. Successful completion of Casper is mandatory in order to maintain admission eligibility.

Casper is an online test which assesses for non-cognitive skills and interpersonal characteristics that we believe are important for successful students and graduates of our program, and will complement the other tools that we use for applicant screening. In implementing Casper, we are trying to further enhance fairness and objectivity in our selection process.

In order to take Casper, you will be responsible for securing access to a computer with audio capabilities, a webcam, and a reliable internet connection on your selected test date. Casper can be taken practically anywhere that you can satisfy the aforementioned requirements. No exceptions will be provided for applicants unable to take Casper online due to being located at sites where the internet is not dependable due to technical or other factors.

Please go to takealtus.com/casper to sign up and reserve a test using your BCIT Student Number and a piece of government-issued photo ID. You will be provided with a limited number of testing dates and times. Please note that these are the only testing dates available for your Casper test. There will be no additional tests scheduled. Please use an email address that you check regularly; there may be updates to the test schedule.

Please direct any inquiries on the test to support@takecasper.com. Alternatively, you may use the chat bubble in the bottom right hand corner of your screen on the takealtus.com/casper/ website.

The Casper test is comprised of 12 sections of video and written scenarios. Following each scenario, you will be required to answer a set of probing questions under a time contract. Each response is graded by a different rater, giving a very robust and reliable view of personal and professional characteristics important to our program. No studying is required for Casper, although you may want to familiarize yourself with the test structure at takealtus.com/casper/, and ensure you have a quiet environment to take the test.
