ICES has been designated by Citizenship and Immigration Canada (CIC) to provide Educational Credential Assessment (ECA) reports for Canadian immigration purposes.

Under the guidelines provided by the Citizenship and Immigration Canada (CIC) ICES will only provide ECA reports for completed academic credentials.

ICES will provide a statement of the general equivalency of international educational credentials to a completed Canadian educational credential.

Please note: Incomplete or provisional academic credentials will not be assessed.

If you apply as a Physician/Specialist Physician (NOC 3111 or 3112) and intend to pursue licensure you are advised to be assessed by the Medical Council of Canada. Individuals applying as a Pharmacist (NOC 3131) and intending to pursue licensure are advised to have an assessment from the Pharmacy Examining Board of Canada. Please refer to the CIC website below for more information.

For more information about Canadian immigration and Express Entry, please visit www.cic.gc.ca/english/immigrate/skilled/index.asp

If you have an existing ICES report and would like to have an update to the report previously issued to meet CIC requirements please complete the form located on our website at: bcit.ca/ices/eca/application.

Applicants with credentials from the People's Republic of China (PRC) will be required to have a **China Academic Degrees and Graduate Education Development Center (CDGDC)** validation sent directly to our offices. - > An ECA can give you early feedback on how your credentials compare to those in Canada. This report may also be a benefit when you are looking for a job; however, be mindful that being assessed does not guarantee you will get a job in your field or at a certain level. It is recommended that you learn about the job market outlook for your occupation in the specific region where you plan to settle.
- > An ECA also does not mean that your work experience and professional credentials are automatically recognized or will be recognized for licensure in Canada. If you work in a regulated profession, you must still go through the process of getting your license in the province or territory that you plan on settling in. Regulatory authorities determine an applicant's readiness for licensure by assessing and recognizing "qualifications" which may include an assessment of education, experience/competencies and language proficiency in addition to other requirements.
- > If you plan to work in an occupation that is regulated in Canada, you should contact the regulatory authority in the province where you plan to live as soon as possible. They can give you information about the process for being licensed, including steps you can take before you leave your home country.
