

BCIT Student Outcomes Reports for Degree Graduates

2017 Edition

**A Detailed Summary of BCIT Degree Graduates' Activities
Two Years After Graduation**

**Results for the 2014 – 2016 Surveys
Of the 2012 – 2014 Graduates**

Survey Foreword

The BCIT Student Outcomes Reports for Degree Graduates presents summary results from the annual survey of BCIT graduates, administered approximately two years after graduation in 2012, 2013 and 2014. The reports combine the last three years of available survey results for 2014, 2015 and 2016. The survey results have been downloaded from the B.C. Student Outcomes Reports website and are organized into two-page program summaries containing information on graduates' labour market experiences and opinions regarding their education. The purpose of this document is to give prospective BCIT students important reference information.

These reports are only available online in Adobe Acrobat Portable Document Format (PDF):

<http://www.bcit.ca/ipao/outcomes.shtml>

Feedback

Those who have questions on the content of this document should direct their queries via e-mail to the following address:

ir@bcit.ca or via telephone (604) 456-1014.

Other Sources of Program Information

The BCIT Student Outcomes Reports for Degree Graduates are produced so that students who require further information regarding specific programs can use these reports in tandem with the BCIT full-time calendar. The calendar contains information about program content as well as admission procedures. The calendar is also online, and is contained within the BCIT web site at the following URL:

<http://www.bcit.ca/study/>

On-line Career Information

The Internet is an excellent source for BC and Canadian labour market information. The following sites represent a selection of BC and Canadian labour market information sources, where links to other related sites can also be found.

Workfutures contains information on the nature of occupations in BC and their employment prospects:

www.workfutures.bc.ca

BC WorkinfoNET is a resource site for job, education, career and labour market information:

www.workinfo.net.bc.ca

The following site is a resource for education and career planning for British Columbians:

www.educationplanner.bc.ca

The following site from the Government of Canada is an employment and career resource tool for youth aged 15-30:

www.youth.gc.ca

BCIT Student Employment Services

BCIT Student Employment Services assists students and alumni with their work search needs. SES also maintains eJobs, a web-based job posting system for the BCIT community. For more information on the services available to BCIT students and alumni visit their web site:

<http://www.bcit.ca/ses/>

Survey Overview

Each year BCIT and all other BC publicly-funded universities, colleges and institutes survey their degree students approximately two years after they complete their program. This survey is the main source of information on graduates' employment experiences and their opinions regarding their educational experiences. The Baccalaureate Graduate Survey has been in existence since 1995 but BCIT has only begun to survey its degree students under this survey since 2005. Previously, degree graduates were surveyed using the Diploma and Certificate Student Outcomes Surveys.

A series of provincial reports are published annually which present detailed survey results by program at the Provincial level. Although those reports are useful, specific BCIT program results are grouped with similar programs offered at other BC colleges and institutes, therefore, information for specific BCIT programs is masked. In fact, readers should note that not all current BCIT programs listed in the calendar will have summaries in this book, as it takes at least two years before graduates of new programs are surveyed and then included in the BCIT Student Outcomes Reports for Degree Graduates.

How is the information organized?

The BCIT Student Outcomes Reports for Degree Graduates presents specific BCIT program results for graduates from full-time day degree programs and night school (part-time) degree programs. The survey results reported are from questions that focus on describing graduates' labour market experiences.

The program survey results are presented using a simple two-page layout, with the displayed information oriented towards reporting graduates' labour market experiences (after graduation). Each program's survey results are presented on their own pages.

The BCIT Student Outcomes Reports for Degree Graduates is specifically designed to be a key reference for prospective students who are in the process of making their program choices. As such, these reports displays much of the survey's labour market results, skill development and college experience, and further studies after completing the program.

How to Interpret This Report

Each Fall, the Baccalaureate Graduate Survey is conducted by telephone. For the two years of available survey data reported in this book, the following table identifies the graduate cohort associated with each of the survey years, the number of graduates initially surveyed, the number who responded, and the response rate.

Survey Year	Survey of those who graduated between:	Number Surveyed	Number Responded	Response Rate
2014	January 1, 2012 – December 31, 2012	750	389	52%
2015	January 1, 2013 – December 31, 2013	785	409	52%
2016	January 1, 2014 – December 31, 2014	808	430	53%

These reports describe graduates' labour market experiences at the time of the survey. As generally the case with the reporting of survey results, the following caveat also applies to the survey results presented here:

Caution is urged in the interpretation of the results, especially in the case of small sample sizes.

Types of Programs

The programs that are presented in this report are organized by School and credential type. Most of these programs are full-time day programs, and most full-time programs range from one year to two years depending on the program. Also, students in certificate and part-time programs have been included. Many of the part-time programs are predominantly night school courses and are usually geared for those already in their careers. These programs typically show stronger employment outcomes than similar full-time programs. Please refer to the BCIT calendar for further program details.

Definitions of Terms

The following table presents the definitions used in the program fact tables:

Data Fields	Description
<i>SURVEY SUMMARY</i>	
Number of Eligible Students	Count of total graduates in program (see table on page iv for cohort year associated with a given survey year).
Number of Respondents	Number of survey respondents.
Response Rate	Percentage of survey respondents to all graduates surveyed.
<i>DESCRIPTION OF FORMER STUDENTS</i>	
Of Eligible Students	Percentage of total graduates in program.
Of Respondents	Percentage of students who responded to survey.
Gender	Percentage of male and female respondents.
Age (yrs)	Age of surveyed respondents.
Place of Residence (at time of survey)	Areas where graduates were residing at the time they completed the BGS survey.
<i>EMPLOYMENT OUTCOMES</i>	
Employed in labour force	Those who responded that they were currently employed (either full-time or part-time).
Not employed but looking	Those who responded that they were currently unemployed and looking for work.
Not employed and not looking for work	Those who responded that they were not currently working and were not looking for employment
Employed full-time	Those who responded that they were currently working full-time (30 hours or more per week).
Employed part-time	Those who responded that they were currently working part-time (less than 30 hours per week).
Permanently or temporarily unable to work	Those who responded that they were not currently employed as they were permanently or temporary unable to work.
Temporarily or seasonal layoff	Those who responded that they were not currently employed as they had been temporarily or seasonally laid off.

Lost or quit job	Those who responded that they were not currently employed as they had lost or quit their job.
Business conditions	Those who responded that they were not currently employed due to business conditions.
Going to school full-time or part-time	Those who responded that they were not currently employed because they were attending school, either full-time or part-time.
Caring for children full-time	Those who responded that they were not currently employed as they were caring for children on a full-time basis.
Other reasons	Those who responded that they were not currently employed for other reasons than stated above.
Annual salary of full-time job	Gross median (middle value) annual salary full-time job.
<i>CURRENT ACTIVITY</i>	
Usefulness of acquired knowledge, skills and abilities in work	Graduates' ratings of the usefulness of the acquired knowledge, skills and abilities in work as 'very', 'somewhat', 'not very' or 'not at all' useful.
<i>FURTHER STUDIES AFTER COMPLETING PROGRAM</i>	
Currently Studying	Those who responded that they were currently studying on a full-time or part-time basis.
Taken Further Studies	Those who responded that they had taken further studies since the last course at their institution. Includes those graduates still attending the same institution.
Undergraduate degree	Graduates who responded that they had taken further studies and indicated the studies were related to an undergraduate degree.
Masters degree	Those graduates who responded that they had taken further studies and indicated the studies were related to a masters' degree.
Doctoral degree	Graduates who responded that they had taken further studies and indicated the studies were related to an doctoral degree.
College	Graduates who responded that they had taken further studies and indicated the studies were college (applied) related.
Professional association	Graduates who responded that they had taken further studies and indicated the studies were related to a professional association.
Other	Graduates who responded that they had taken further studies and indicated the studies were not classified under the above groupings.

<i>SKILL DEVELOPMENT AND UNIVERSITY EXPERIENCE</i>	
Satisfied with education	Respondents were asked to rate their level of satisfaction with respect to the educational experience they received for their program. The rating scale was 'very satisfied', 'satisfied', 'dissatisfied' and 'very dissatisfied'.
Quality of instruction	Graduates who responded were asked to rate the quality of instruction with respect to the program they graduated from. The rating scale was 'very good', 'good', 'poor' and 'very poor'.

Student Outcomes Reporting System (SORS)

This report was run by:

British Columbia Institute of Technology

This report was run on:

06/23/2017

This report shows data from:

Survey name: BC Baccalaureate Graduates Survey (BGS)

Survey year(s): 2014, 2015, 2016

Results are from previous **graduating years 2012 - 2014** and are subject to industry and occupational trends

About the BGS survey:

The BGS survey is conducted annually from September to January, with funding from the ministry responsible for post-secondary education. The eligible cohort for the BGS consists of graduates from B.C.'s public post-secondary institutions who have completed their bachelor's degree programs two years before the survey.

Please note the BGS does not include international students.

Data Definitions:

Information provided through BC Student Outcomes

*** Please take caution when interpreting the results with a response rate less than 30 may not be statistically be valid.**

Eligible Students: Count of total graduates in program.

Respondents: Former students who responded to the BGS survey.

Programs less than 8 respondents are excluded from Summary Outcomes individual program reports.

Response Rate: Percentage of survey respondents to all graduates surveyed.

% Satisfied with Education: Percent of respondents who felt "very", "satisfied", "dissatisfied" or "very dissatisfied" with education received.

% Rated Quality of Instruction: Percentage of respondents who felt quality of instruction was "very good", "good", "poor" or "very poor".

% Have taken further studies since leaving program: Respondents taken any other formal post-secondary education or training

% Type of further education taken: Type of formal post-secondary education or training taken by respondents.

% Were currently studying: Respondents currently enrolled in formal post-secondary education or training

% Employed in Labour Force: Respondents "currently working", "not employed", "not looking" or "not employed but looking" at a paid job or business.

% Of Employed Respondents Either Employed Full or Part-time: Respondents currently working in labour force either "full" or "part" time.

% Currently Training Related Job: These are occupations that the respondent describes as "very", "somewhat", "not very" or "not at all" related to their studies.

Gross Median Annual Salary (full-time – main job): Salary of employed full-time respondents.

% Main reason why currently not employed: The main reason why respondents are currently not employed at a paid job or business.

% Rated Knowledge, Skills & Abilities Acquired During Education Useful in Job: These are acquired skills and abilities that the respondent describes as "very", "somewhat", "not very", or "not at all" useful in their job.

% of Funding you relied on to pay for you education: Most important or primary source of funding that respondents relied on to help pay for the educational program they completed.
