

BCIT Student Outcomes Reports for Apprentice Program Completers

2023 Edition

**A Three Page Summary of Apprentice Activities
One Year After Last Level Completion**

**Results of 2020 – 2022 Surveys
Of the 2019 – 2021 Completers**

Foreword

The BCIT Apprenticeship Student Outcomes Reports presents summary results from the annual survey of BCIT apprentices, administered approximately one year after completion of their final level. The reports combine the last three years of available survey results for 2020, 2021 and 2022. The survey results, downloaded from the BC Student Outcomes Sharepoint website are organized into three-page program summaries. Each contains information on apprentices' labour market experiences and their opinions regarding their education. The purpose of this document is to give prospective BCIT students important reference information.

This book is now available online in Adobe Acrobat Portable Document Format (PDF):

<http://www.bcit.ca/ir/>

For additional information or to access the BC Student Outcomes Reports visit their website:

<https://www2.gov.bc.ca/gov/content/data/statistics/people-population-community/education-training/bc-student-outcomes>

Feedback

Those who have questions on the content of this document should direct their queries via e-mail to the following address:

ir@bcit.ca or via telephone (604) 456-1014.

Other Sources of Program Information

The BCIT Student Outcomes Reports for Apprenticeship Completers are produced so that students who require further information regarding specific programs can use these reports in tandem with the BCIT full-time calendar. The calendar contains information about program content as well as admission procedures. The calendar is also online, and is contained within the BCIT web site at the following URL:

<http://www.bcit.ca/study/>

Online Career Information

The Internet is an excellent source for BC and Canadian labour market information. The following sites represent a selection of BC and Canadian labour market information sources, where links to other related sites can also be found.

WorkBC's services include job-search resources, personal employment planning, skills assessment and training, and work experience placement.

www.workbc.ca

The following site is a resource for education and career planning for British Columbians:

www.educationplannerbc.ca

The following site from the Government of Canada is an employment and career resource tool for youth aged 15–30:

<https://www.canada.ca/en/services/youth.html>

BCIT Student Employment Services

BCIT Student Employment Services assists students and alumni with their work search. SES also maintains eJobs, a web-based job posting system for the BCIT community. For more information on the services available to BCIT students and alumni visit their web site:

Survey Overview

Each year, BCIT and all other publicly-funded universities, colleges and institutes in BC survey their apprenticeship completers approximately one year after their program completion. This survey is the main source of information on apprenticeship completers' employment experiences and their opinions regarding their educational experiences. The Apprenticeship Student Outcomes Survey has existed since 2005.

The province publishes a series of reports annually, detailing survey results by program at the Provincial level. The reports group together similar programs offered at other BC universities, colleges and institutes. So, although those reports are useful, information for specific BCIT programs is masked. In fact, readers should note that not all current BCIT apprentice programs listed in the calendar will have summaries in this book, as it takes at least one year before graduates of new programs are surveyed and then included in the BCIT Apprenticeship Student Outcomes Reports.

How is the information organized?

The BCIT Apprenticeship Student Outcomes Reports presents specific BCIT program results for former students who have completed the final level of their technical training. The survey results reported are from questions that focus on describing apprentices' labour market experiences. Whenever possible, three years of combined survey data are presented for each program.

The program survey results are presented using a three-page layout, with the displayed information oriented towards reporting apprentices' labour market experiences (after final level completion). Each apprentice program's survey results are presented on their own pages, with the summaries themselves grouped by School.

The BCIT Apprenticeship Student Outcomes Reports are specifically designed to be a key reference for prospective students who are in the process of making their program choices. As such, these reports display a summary of the survey's labour market results, skill development and college experience, as well as further studies after completing the program.

How to Interpret This Report

Each Spring, the Apprenticeship Student Outcomes Survey is conducted by telephone. For the three years of available survey data reported in this book, the following table identifies the apprenticeship cohort associated with each of the survey years, the number of apprentices initially surveyed, the number who responded, and the response rate.

Survey Year	Survey of those who completed between:	Number Surveyed	Number Responded	Response Rate
2020	July 1, 2018 – June 30, 2019	1,342	696	52%
2021	July 1, 2019 – June 30, 2020	1,443	704	49%
2022	July 1, 2020 – June 30, 2021	1,480	643	43%

This report describes apprentices' labour market experiences at the time of the survey. As is generally the case with the reporting of survey results, the following caveat also applies to the survey results presented here:

Caution is urged in the interpretation of the results, especially in the case of small sample sizes.

Types of Programs

The programs that are presented in these reports are organized by School. Please refer to the BCIT calendar for further program details.

Contents

School of Construction

Boilermaker
Carpentry
Electrical
Gasfitter Class B
Industrial Electrician
Insulator (Heat/Frost)
Ironworker Generalist
Joinery (Cabinetmaker)
Metal Fabricator
Plumber
Sheet Metal
Steamfitter/Pipefitter
Welding Level A
Welding Level B

School of Energy

Instrumentation and Control Technician
Machinist
Millwright
Refrigeration and Air Conditioning Mechanic

School of Transportation

Automotive Technician
Heavy Duty Equipment Technician
Marine Mechanical Technician
Motor Vehicle Body Repair Technician
Motorcycle Technician Foundation
Truck and Transport Mechanic

Definitions of Terms

The Data Field terminology used in the program fact tables is defined below.

Data Fields	Description
DESCRIPTION OF FORMER STUDENTS	
Number of Eligible Students	Count of total apprentice completers in program. (See table on page iv for cohort year associated with a given survey year.)
Number of Respondents	Number of apprentices who responded to survey.
Response Rate	Survey completion rate of program.
PROGRAM DEMOGRAPHICS	
Gender	Gender of former students
Age (yrs)	Age of surveyed respondents.
Previous education related to apprenticeship training	Those respondents who took high school apprentice programs
EMPLOYMENT OUTCOMES	
In Labour Force	Respondents in labour force, includes people who were employed as well as those who were looking and available for work at the time of the survey.
Employment Rate	Those who were working in labour market. Note: inverse of unemployment rate. BCSTATS web page "employment rate" results use the currently employed calculation.
Employed in training-related job	Respondents that were currently employed in an occupation that was either "very" or "somewhat" related to their past training. (asked of employed respondents)
Employed full-time	Respondents who were currently working full-time (30 hours or more per week).
Employed part-time	Respondents who were currently working part-time (less than 30 hours per week).
Hourly Wage of those in training related job	Mean (average) hourly wage of those in training related job (main full-time or part-time job).
TOP 5 JOBS OBTAINED RELATED TO PROGRAM	
NOC 4	The National Occupation Classification (NOC) is a systematic taxonomy of occupations in the Canadian labour market. The NOC has a structure at three levels: Major Groups (2 digits), Minor Groups (3 digits) and Unit Groups (4 digits). ¹ Results in this table are presented at Unit Group level.

¹ BC Stats: Student Outcomes Reporting System User's Guide (page 31)

Percentage of those employed in this training-related job	The percentage employed is the number employed in this training-related occupation out of all employed respondents. ² The percentage is broken out by NOC title. Relatedness is self-declared by the respondent.
Median Hourly Wage	Median (middle value) hourly wage of main full-time or part-time job broken out by NOC title.
<i>JOB OBTAINED – OF THOSE EMPLOYED IN TRAINING RELATED JOBS</i>	
How long did it take you to find a job in your trade after you finished your training?	Asked of respondents who did not have a job to go back to after their training, took “less than one month”, “one to two months”, “three to four months”, “five to six months” or “more than six months”.
<i>Education Outcomes</i>	
How satisfied are you with the education you received?	Respondents who were “very satisfied” or “satisfied”, with their education.
How useful were the knowledge and skills you gained in your program in performing your (main) job?	Respondents who were currently employed in an occupation that was either “very”, “somewhat”, “not very” or “not at all” related to their past training.
Skill Development How well students were prepared to:	Percentage of respondents who felt skill development was applicable. Question changed to a 4-point scale in 2015 Respondents who chose “Very helpful”, “helpful”, “not very helpful” or “Not at all helpful” to the skills listed.
Aspects of Program How did students rate:	Percentage of respondents who felt aspects of program were applicable: Those who responded “very good” or “good”, “adequate”, “poor”, “very poor” to the aspects listed.
<i>IN-SCHOOL EXPERIENCE</i>	
Relocation	Respondents who indicated they relocated to attend school.
Certification	Respondents who indicated they had received Trades Qualification (TQ), Certification of Qualification (CQ) or Interprovincial (IP) certification.
Was the length of your in-school training adequate to cover the material	Respondents who indicated that the length of in-school training was “too long”, “about right” or “too short” to cover the material.
How useful have the knowledge and skills you gained from your training been in preparing you to write the TQCA or IP Certification Examination?	Respondents who deemed their training related knowledge and skills “very”, “somewhat”, “not very” or “not at all” useful in preparing them for writing their certification examination.

² BC Stats: BC College and Institute Surveys Outcomes – Detailed Report (page 4)

How satisfied are you with the overall workplace training experience?	Respondents who were “very satisfied”, “satisfied”, “dissatisfied” or “very dissatisfied” with their satisfaction towards their workplace training experience.
How related was your in-school training to your workplace experience?	Asked of respondents who were employed as an apprentice or had a work placement outside of their institution. Those who responded as “very”, “somewhat”, “not very”, or “not at all” related.
