A Detailed Summary of BCIT Degree Graduates' Activities  
Two Years After Graduation

Results for the 2016 – 2018 Surveys  
Of the 2014 – 2016 Graduates

## Foreword

The BCIT Student Outcomes Reports for Degree Graduates presents summary results from the annual survey of BCIT graduates, administered approximately two years after graduation in 2014, 2015 and 2016. The reports combine the last three years of available survey results for 2016, 2017 and 2018. The survey results, downloaded from the BC Student Outcomes Sharepoint website, are organized into two-page program summaries. Each contains information on graduates' labour market experiences and their opinions regarding their education. The purpose of this document is to give prospective BCIT students important reference information.

These reports are only available online in Adobe Acrobat Portable Document Format (PDF):

<http://www.bcit.ca/ir/>

For additional information or to access the BC Student Outcomes Reports visit their website:

<http://outcomes.bcstats.gov.bc.ca/Default/Home.aspx>

### *Feedback*

Those who have questions on the content of this document should direct their queries via e-mail to the following address:

[ir@bcit.ca](mailto:ir@bcit.ca) or via telephone (604) 456-1014.

### *Other Sources of Program Information*

The BCIT Student Outcomes Reports for Degree Graduates are produced so that students who require further information regarding specific programs can use this report in tandem with the BCIT full-time calendar. The calendar contains information about program content as well as admission procedures. The calendar is also online, and is contained within the BCIT web site at the following URL:

<http://www.bcit.ca/study/>

## *Online Career Information*

The Internet is an excellent source for BC and Canadian labour market information. The following sites represent a selection of BC and Canadian labour market information sources, where links to other related sites can also be found.

WorkBC's services include job-search resources, personal employment planning, skills assessment and training, and work experience placement.

[www.workbc.ca](http://www.workbc.ca)

The following site is a resource for education and career planning for British Columbians:

[www.educationplanner.bc.ca](http://www.educationplanner.bc.ca)

The following site from the Government of Canada is an employment and career resource tool for youth aged 15–30:

[www.youth.gc.ca](http://www.youth.gc.ca)

## *BCIT Student Employment Services*

BCIT Student Employment Services assists students and alumni with their work search. SES also maintains eJobs, a web-based job posting system for the BCIT community. For more information on the services available to BCIT students and alumni visit their web site:

<http://www.bcit.ca/ses/>

## Survey Overview

Each year, BCIT and all other publicly-funded universities, colleges and institutes in BC survey their degree students approximately two years after their program completion. This survey is the main source of information on graduates' employment experiences and their opinions regarding their educational experiences. The Baccalaureate Graduate Survey project has existed for more than 10 years. Previously, degree graduates were surveyed using the Diploma and Certificate Student Outcomes Surveys.

The province publishes a series of reports annually, detailing survey results by program at the Provincial level. The reports group together similar programs offered at other BC colleges and institutes. So, although those reports are useful, information for specific BCIT programs is masked. In fact, readers should note that not all current BCIT programs listed in the calendar will have summaries in this book, as it takes at least two years before graduates of new programs are surveyed and then included in the BCIT Student Outcomes Reports for Degree Graduates.

### *How is the information organized?*

The BCIT Student Outcomes Reports for Degree Graduates presents specific BCIT program results for graduates from full-time (day school) programs and part-time (night school) programs. The survey results reported from questions targeting graduates' labour market experiences. Whenever possible, three years of combined survey data are presented for each program.

The program survey results are presented using a simple two-page layout, with the displayed information oriented towards reporting graduates' labour market experiences (after graduation). Each program's survey results are presented on their own pages.

The BCIT Student Outcomes Reports for Degree Graduates are specifically designed to be a key reference for prospective students who are in the process of making their program choices. As such, these reports displays much of the survey's labour market results, skill development and college experience, as well as further studies after completing the program.

## *How to Interpret This Report*

Each fall, the Baccalaureate Graduate Survey is conducted by telephone. For the three years of available survey data reported in this book, the following table identifies the graduate cohort associated with each of the survey years, the number of graduates initially surveyed, the number who responded, and the response rate.

Survey Year	Survey of those who graduated between:	Number Surveyed	Number Responded	Response Rate
2016	January 1, 2014 – December 31, 2014	808	430	53%
2017	January 1, 2015 – December 31, 2015	753	374	50%
2018	January 1, 2016 – December 31, 2016	868	444	51%

These reports describe graduates' labour market experiences at the time of the survey. As is generally the case with the reporting of survey results, the following caveat also applies to the survey results presented here:

*Caution is urged in the interpretation of the results, especially in the case of small sample sizes.*

## *Types of Programs*

The programs that are presented in this report are organized by School and credential type. Most of these programs are full-time day programs, and most full-time programs range from one year to two years' duration depending on the program. Also, students in certificate and part-time programs have been included. Many of the part-time programs are predominantly night school courses and are usually geared for those already in their careers. These programs typically show stronger employment outcomes than similar full-time programs. Please refer to the BCIT calendar for further program details.

## Contents

### All Graduates

#### School of Business

##### Degree Programs

- Accounting
- Business Administration

#### School of Computing & Academic Studies

##### Degree Programs

- Computer Systems (Part-time)
- Computer Systems (Full-time)
- Forensic Investigation
  - Forensic Investigation – Computer Crime
  - Forensic Investigation – Crime & Intelligence
  - Forensic Investigation – Forensic Science

#### School of Construction and the Environment

##### Degree Programs

- Architectural Science
- Civil Engineering
- Construction Management
- Ecological Restoration
- Environmental Engineering Technology
- Geomatics
- Geographic Information Systems

#### School of Health Sciences

##### Degree Programs

- Environmental Health
- Food Technology and Operations Management
- Nursing (3 years)
- Specialty Nursing

#### School of Energy

##### Degree Programs

- Electronics
- Electrical Engineering
- Mechanical Engineering

#### School of Transportation

##### Degree Programs

- Technology Management

## Definitions of Terms

The Data Field terminology used in the program fact tables is defined below.

Data Fields	Description
<i>SURVEY SUMMARY</i>	
Number of Eligible Students	Count of total graduates in program (See table on page iv for cohort year associated with a given survey year).
Number of Respondents	Number of survey respondents.
Response Rate	Percentage of survey respondents to all graduates surveyed.
<i>DESCRIPTION OF FORMER STUDENTS</i>	
Gender	Percentage of male and female respondents.
Age (yrs)	Break down by age groups (age is at the time of survey). Age grouping changed in 2017
Place of Residence (at time of survey)	Areas where graduates were residing at the time they completed the BGS survey.
<i>EMPLOYMENT OUTCOMES</i>	
In labour force	Respondents who were in labour force. The labour force includes people who were employed as well as those who were looking and available for work at the time of survey.
Unemployment	Respondents were unemployed if they were not working but looking for a job. Excludes full-time students looking for full-time work and students who were unavailable for work.
Currently employed at time of survey	Those who responded “yes” when asked if they were currently working at a job or business at the time of the survey. Asked of all respondents. Note: BCSTATS web page “employment rate” results use the currently employed calculation.
Employed full-time	Respondents who were currently working full-time (30 hours or more per week).
Employed part-time	Respondents who were currently working part-time (less than 30 hours per week).
Of those employed, % currently in training related job	Occupations that the respondent describes as “very”, “somewhat”, “not very”, or “not at all” related to their studies.
Usefulness of acquired knowledge, skills and abilities in work	Graduates’ ratings of the usefulness of the acquired knowledge, skills and abilities in work as ‘very’, ‘somewhat’, ‘not very’ or ‘not at all’ useful.

Annual salary of full-time job	Gross median (middle value) annual salary full-time job.
Of those currently not employed, main reason why	Respondents who were not currently employed as they were permanently or temporary unable to work, they had been temporarily or seasonally laid off, they had lost or quit their job, they were not currently employed due to business conditions, they were attending school, either full-time or part-time, they were caring for children on a full-time basis or they were not currently employed for other reasons than stated above.
<i>EDUCATION FINANCING</i>	
Funding graduates relied on to pay for their education	Most important or primary source of funding that respondent relied on to help pay for the educational program they completed.
<i>SKILL DEVELOPMENT AND IN-SCHOOL TRAINING</i>	
Skill Development How well students were prepared to:	Percentage of respondents who felt skill development was applicable. Those who responded "Very helpful", "helpful", "not very helpful" or "Not at all helpful" to the skills listed.
Quality of instruction	Respondents who were asked to rate the quality of instruction with respect to the program they graduated from. The rating scale was 'very good', 'good', 'poor' and 'very poor'.
Satisfied with education	Respondents were asked to rate their level of satisfaction with respect to the educational experience they received for their program. The rating scale was 'very satisfied', 'satisfied', 'dissatisfied' and 'very dissatisfied'.
<i>FURTHER STUDIES AFTER COMPLETING PROGRAM</i>	
Currently Studying	Respondents who were currently studying on a full-time or part-time basis (at time of survey).
Taken Further Studies	Respondents who had taken further studies since the last course at their institution. Includes those graduates still attending the same institution.
Undergraduate degree	Respondents who had taken further studies and indicated the studies were related to an undergraduate degree.
Masters degree	Respondents who had taken further studies and indicated the studies were related to a masters' degree.
Doctoral degree	Respondents who had taken further studies and indicated the studies were related to an doctoral degree.

Professional association	Respondents who had taken further studies and indicated the studies were related to a professional association.
Certificate/Diploma below Bachelor level	Respondents who had taken further studies and indicated the studies were related to a certificate or diploma. Question added in 2017.
Postgraduate certificate/diploma	Respondents who had taken further studies and indicated the studies were related to a postgraduate certificate or diploma. Question added in 2017.
Other	Respondents who had taken further studies and indicated the studies were not classified under the above groupings.

## Student Outcomes Reporting System (SORS)

### This report was run by:

British Columbia Institute of Technology

### This report was run on:

05/07/2019

### This report shows data from:

Survey name: BC Baccalaureate Graduates Survey (BGS)

Survey year(s): 2016, 2017, 2018

Results are from previous **graduating years 2014 - 2016** and are subject to industry and occupational trends

### About the BGS survey:

The BGS survey is conducted annually from September to January, with funding from the ministry responsible for post-secondary education. The eligible cohort consists of graduates from B.C.'s public post-secondary institutions who have completed their bachelor's degree programs two years prior to the survey.

Please note the BGS does not include international students.

### Data Definitions:

Information provided through BC Student Outcomes

**\* Please take caution when interpreting the results with a response rate less than 30 may not be statistically be valid.**

**Eligible Students:** Count of total graduates in program.

**Respondents:** Former students who responded to the BGS survey.

Programs less than 8 respondents are excluded from Summary Outcomes individual program reports.

**Response Rate:** Percentage of survey respondents to all graduates surveyed.

**% in Labour force:** Respondents in labour force, includes people who were employed as well as those who were looking and available for work at time of survey.

**% Unemployment rate:** Those in labour force who were not working but looking for a job (excludes f/t students looking for f/t work and students unavailable for work).

**% Currently employed at time of survey:** Those who were currently working at a job or business at the time of survey. (Asked of all respondents)

**% Of employed respondents either employed full or part-time:** Respondents currently working in labour force either "full" or "part" time.

**% Of those employed, currently in training related job:** Occupations that respondents describe as "very", "somewhat", "not very" or "not at all" related to their studies.

**% of Funding graduates relied on to pay for their education:** Most important or primary source of funding that respondents relied on to help pay for the educational program they completed.

**Gross median annual salary (full-time – main job):** Salary of employed full-time respondents.

**% Usefulness of acquired knowledge, skills and abilities in work:** These are acquired skills and abilities that the respondent describes as "very", "somewhat", "not very", or "not at all" useful in their job.

**% Of those currently not employed:** The main reason why respondents are currently not employed at a paid job or business.

**% Have taken further studies since leaving program:** Respondents taken any other formal post-secondary education or training.

**% Type of further education taken:** Type of formal post-secondary education or training taken by respondents.

**% Were currently studying:** Respondents currently enrolled in formal post-secondary education or training at time of survey.

**Age:** Break down by age groups (age is at the time of survey). Age grouping changed in 2017.

**% Rate quality of instruction:** Respondents who felt quality of instruction was "very good", "good", "poor" or "very poor".

**% Satisfied with education:** Respondents who felt "very", "satisfied", "dissatisfied" or "very dissatisfied" with education received.
