BCIT Student Outcomes Reports for Certificate and Diploma Graduates

2018 Edition

A Detailed Summary of BCIT Graduates' Activities One Year After Graduation

Survey of 2014 – 2016 Graduates

Prepared by: BCIT Institutional Research (IR) Office

March 2018

Foreword

The BCIT Student Outcomes Reports for Certificate and Diploma Graduates presents summary results from the annual survey of BCIT graduates, administered approximately one year after graduation. The reports combine the last three years of available survey results for 2015, 2016 and 2017. The survey results have been downloaded from the B.C. Student Outcomes sharepoint website and are organized into three-page program summaries containing information on graduates' labour market experiences and opinions regarding their education. The purpose of this document is to give prospective BCIT students important reference information.

This book is now only available online in Adobe Acrobat Portable Document Format (PDF):

http://www.bcit.ca/ir/

For additional information or to access the B.C. Student Outcomes Reports visit their website:

http://outcomes.bcstats.gov.bc.ca/Default/Home.aspx

Feedback

Those who have questions on the content of this document should direct their queries via e-mail to the following address:

ir@bcit.ca *or via telephone (604) 456-1014.*

Other Sources of Program Information

The BCIT Student Outcomes Reports for Certificate and Diploma Graduates are produced so that students who require further information regarding specific programs can use this report in tandem with the BCIT full-time calendar. The calendar contains information about program content as well as admission procedures. The calendar is also online, and is contained within the BCIT web site at the following URL:

http://www.bcit.ca/study/

On-line Career Information

The Internet is an excellent source for BC and Canadian labour market information. The following sites represent a selection of BC and Canadian labour market information sources, where links to other related sites can also be found.

WorkBC offers services that include job-search resources, personal employment planning, skills assessment and training, and work experience placement.

www.workbc.ca

The following site is a resource for education and career planning for British Columbians:

www.educationplanner.bc.ca

The following site from the Government of Canada is an employment and career resource tool for youth aged 15-30:

www.youth.gc.ca

BCIT Student Employment Services

BCIT Student Employment Services assists students and alumni with their work search needs. SES also maintains eJobs, a web-based job posting system for the BCIT community. For more information on the services available to BCIT students and alumni visit their web site:

Survey Overview

Each year BCIT and all other BC publicly-funded colleges and institutes survey their students approximately one year after they complete their program. This survey is the main source of information on graduates' employment experiences and their opinions regarding their educational experiences. This survey project has been in existence for over ten years.[1]

A series of provincial reports are published annually which present detailed survey results by program at the Provincial level. Although those reports are useful, specific BCIT program results are grouped with similar programs offered at other BC colleges and institutes, therefore, information for specific BCIT programs is masked. In fact, readers should note that not all current BCIT programs listed in the calendar will have summaries in this book, as it takes at least two years before graduates of new programs are surveyed and then included in the BCIT Student Outcomes Reports for Certificate and Diploma Graduates.

How is the information organized?

The BCIT Student Outcomes Reports for Certificate and Diploma Graduates presents specific BCIT program results for graduates from full-time day programs and night school (part-time) programs. The survey results reported are from questions that focus on describing graduates' labour market experiences. Whenever possible, three years of combined survey data are presented for each program.

The program survey results are presented using a three-page layout, with the displayed information oriented towards reporting graduates' labour market experiences (after graduation). Each program's survey results are presented on their own pages, with the summaries themselves grouped by credential type and by School.

The BCIT Student Outcomes Reports for Certificate and Diploma Graduates are specifically designed to be a key reference for prospective students who are in the process of making their program choices. As such, these reports display much of the survey's labour market results, skill development and college experience, and further studies after completing the program.

[1] The Outcomes Working Group provides direction for the project and has a College/Institute and Ministry representation.

How to Interpret This Report

Each spring, the Outcomes Survey is conducted by telephone. In 2007, the survey was piloted with a web version component and 14% of those who responded completed their surveys on-line. For the three years of available survey data reported in this book, the following table identifies the graduate cohort associated with each of the survey years, the number of graduates initially surveyed, the number who responded, and the response rate.

Survey Year	Survey of those who graduated between:	Number Surveyed	Number Responded	Response Rate
2015	July 1, 2013 – June 30, 2014	5,780	3,541	61%
2016	July 1, 2014 – June 30, 2015	5,762	3,503	61%
2017	July 1, 2015 – June 30, 2016	6,002	3,457	58%

This report describes graduates' labour market experiences at the time of the survey. As generally the case with the reporting of survey results, the following caveat also applies to the survey results presented here:

Caution is urged in the interpretation of the results, especially in the case of small sample sizes.

Types of Programs

The programs that are presented in this book are organized by School and credential type. Most of these programs are full-time day programs, and most full-time programs range from one year to two years depending on the program. Also, students in certificate and part-time programs have been included. Many of the part-time programs are predominantly night school courses and are usually geared for those already in their careers. These programs typically show stronger employment outcomes than similar full-time programs. Please refer to the BCIT calendar for further program details.

- Diesel Engine Technician Foundation
- Heavy Duty Mechanics
- Heavy Mechanical Trades Foundation
- Motorcycle and Power Equipment Technician
- Railway Conductor

Definitions of Terms

The following table presents the definitions used in the program fact tables:

Data Fields	Description
SURVEY SUMMARY	
Number of Eligible Students in Program	Count of total graduates in program (see table on page iv for cohort year associated with a given survey year).
Number of Students Surveyed	Number of survey respondents.
Response Rate	Percentage of survey respondents to all graduates surveyed.
DESCRIPTION OF FORMER STUDENTS	
Gender	Percentage of male and female respondents.
Age (yrs)	Age of surveyed respondents. Breakdown by age groups at time of survey.
Taken previous post-secondary education	Respondents who have taken previous post-secondary education and gave a valid response. Respondents could report more than one type of post-secondary credential.
EMPLOYMENT OUTCOMES	
Employed full-time	Those who responded that they were currently working full-time (30 hours or more per week).
Employed part-time	Those who responded that they were currently working part-time (less than 30 hours per week).
In Labour force	Respondents who were in the labour force. The labour force includes people who were employed as well as those who were looking and available for work at the time of the survey.
Currently Working	Those who responded "yes" when asked if they were currently working at a job or business at the time of the survey (the number employed as a percentage of all respondents).
Employed in a Job Related to Program	Those who responded that they were currently employed in an occupation that was either "very" or "somewhat" related to their past training. Further, graduates who enter an occupation related to their program have been shown (on average) to have a higher incidence of full-time work, and have higher salaries than those in a job "not related" to their program.
Employed in Permanent Job	Those who responded that they were currently employed and their position was permanent. Does not include graduates who identified themselves as "self-

	employed."
Had Current Job Before/During Studies	Those who responded that they were currently employed and had their current position before or while completing their program studies.
Hourly Wage	Median (middle value) hourly wage of main full-time or part-time job.
How Related is Your Job to The Program You Took?	Those who responded that they were currently employed in an occupation that was "very related", "somewhat related", "not very related" or "not at all related" to their past training. Further, graduates who enter an occupation related to their program have been shown (on average) to have a higher incidence of full-time work, and have higher salaries than those in a job "not related" to their program.
How Useful was Your Program in Getting Your Job? *(obtained after studies)*	Those who responded that their program was "very", "somewhat", "not very" or "not at all" useful in getting their job.
How Useful Were the Knowledge and Skills You Gained in Your Program in Performing Your Job?	Those who responded that the knowledge and skills gained from their program were "very", "somewhat", "not very" or "not at all" useful in performing their job.
CURRENT ACTIVITY	
Working Only	Those who responded that they were working only.
Studying Only	Those who responded that they were currently studying and were not working.
Studying and Working	Those who responded that they were currently studying as well as working.
Not Working and Not Studying	Those who responded that they were not currently employed or studying.
FURTHER STUDIES AFTER COMPLETING PROGRAM	
Currently Studying	Those who responded that they were currently studying on a full-time or part-time basis.
Taken Further Studies	Those who responded that they had taken further studies since the last course at their institution.
Where Are You Studying or Where Did You Take Further Studies?	Of those graduates who are currently studying or have taken further studies, those respondents indicate which B.C. Public Post-Secondary Institution they attended for those studies.
Those who took further studies in a related field were asked: How Well Were You Prepared for Further Studies?	Those who responded that their further studies were related to their program and felt that they were "very well", "somewhat", "not very" or "not at all" prepared for further study due to the program.

SKILL DEVELOPMENT AND COLLEGE EXPERIENCE	
Skill Development How Well Are Students Prepared to:	Percentage of respondents who felt skill development was applicable: Question changed to a 4-point scale in 2015. Those who responded "Very helpful"& "helpful", "not very helpful" or "Not at all helpful" to the skills listed.
Aspects of Program How Did Students Rate:	Percentage of respondents who felt aspects of program were applicable: Those who responded "very good", "good", "adequately", "poor", "very poor" or "not applicable" to the aspects listed.
Aspects of Courses How Did Students Rate:	Percentage of respondents who felt aspects of courses were applicable: Those who responded "very good", "good", "adequate", "poor", "very poor" or "not applicable" to the course aspects listed.
OVERALL SATISFACTION	
How Satisfied Are You with Your Education?	Those who responded indicated they were "very satisfied", "satisfied", "dissatisfied" or "very dissatisfied" with their education.
JOB SEARCH EXPERIENCE	
How Long Did It Take You to Find Your Program-Related Job?	Those who responded that the time it took to find their program-related job as "less than one month", "one to two months", "three to four months", "five to six months" or "more than six months".
JOBS OBTAINED	
Top 5 Jobs Obtained Related to Program	
NOC	The National Occupation Classification (NOC) is a systematic taxonomy of occupations in the Canadian labour market. The NOC has a structure at three levels: Major Groups (2 digits), Minor Groups (3 digits) and Unit Groups (4 digits).[2] Results in this table are presented at the Unit Group level.
Percentage Employed in this Program Related Job	The percentage employed is the number employed in this program-related occupation out of all employed respondents.[3] The percentage is broken out by NOC code and title. Relatedness is self-declared by the respondent.
Median Hourly Wage (Main Job)	Median (middle value) hourly wage of main full-time or part-time job broken out by NOC code and title.
