Foreword

The BCIT Trades Student Outcomes Reports for Certificate and Diploma Graduates presents summary results from the annual survey of BCIT graduates, administered approximately one year after graduation. The reports combine the last three years of available survey results for 2017, 2018 and 2019. The survey results, downloaded from the BC Student Outcomes Sharepoint website, are organized into three-page program summaries. Each containing information on graduates' labour market experiences and their opinions regarding their education. The purpose of this document is to give prospective BCIT students important reference information.

This book is now only available online in Adobe Acrobat Portable Document Format (PDF):

http://www.bcit.ca/ir/

For additional information, or to access the BC Student Outcomes Reports, visit their website:

Other Sources of Program Information

The BCIT Trades Student Outcome Reports for Certificate and Diploma Graduates are produced so that students who require further information regarding specific programs can use this report in tandem with the BCIT full-time calendar. The calendar contains information about program content as well as admission procedures. The calendar is also online, and is contained within the BCIT web site at the following URL:

http://www.bcit.ca/study/
Online Career Information

The Internet is an excellent source for BC and Canadian labour market information. The following sites represent a selection of BC and Canadian labour market information sources, where links to other related sites can also be found.

*WorkBC*’s services include job-search resources, personal employment planning, skills assessment and training, and work experience placement.

Survey Overview

Each year, BCIT and all other publicly-funded universities, colleges and institutes in BC survey their students approximately one year after their program completion. This survey is the main source of information on graduates’ employment experiences and their opinions regarding their educational experiences. This survey project has existed for more than ten years.¹

The province publishes a series of reports annually, detailing survey results by program at the Provincial level. The reports group together similar programs offered at other BC universities, colleges and institutes. So, although those reports are useful, information for specific BCIT programs is masked. In fact, readers should note that not all current BCIT programs listed in the calendar will have summaries in this book, as it takes at least two years before graduates of new programs are surveyed and then included in the BCIT Trades Student Outcomes Reports for Certificate and Diploma Graduates.

How is the information organized?

The BCIT Trades Student Outcomes Reports for Certificate and Diploma Graduates replaces the previous data releases. This new dataset contains data on trades foundation and trades-related vocational programs. The survey results reported are from questions that focus on describing graduates’ labour market experiences. Whenever possible, three years of combined survey data are presented for each program.

The program survey results are presented using a three-page layout, with the displayed information oriented towards reporting graduates’ labour market experiences (after graduation). Each program’s survey results are presented on their own pages, with the summaries themselves grouped by credential type and by school.

The BCIT Trades Student Outcomes Reports for Certificate and Diploma Graduates are specifically designed to be a key reference for prospective students who are in the process of making their program choices. As such, these reports display much of the survey’s labour market results, skill development and college experience, as well as further studies after completing the program.

¹ The Outcomes Working Group provides direction for the project and has a College/Institute and Ministry representation.
How to Interpret This Report

Each spring, the Outcomes Survey is conducted by telephone. In 2007, the survey was piloted with a web version component and 14% of respondents completed their surveys online. For the three years of available survey data reported in this book, the following table identifies the graduate cohort associated with each of the survey years, the number of graduates initially surveyed, the number who responded, and the response rate.

<table>
<thead>
<tr>
<th>Survey Year</th>
<th>Survey of those who graduated between:</th>
<th>Number Surveyed</th>
<th>Number Responded</th>
<th>Response Rate</th>
</tr>
</thead>
<tbody>
<tr>
<td>2017</td>

<tr>
<td>2019</td>
<td>July 1, 2017 – June 30, 2018</td>
<td>1,697</td>
<td>880</td>
<td>52%</td>
</tr>
</tbody>
</table>

This report describes graduates’ labour market experiences at the time of the survey. As is generally the case with the reporting of survey results, the following caveat also applies to the survey results presented here:

*Caution is urged in the interpretation of the results, especially in the case of small sample sizes.*

Types of Programs

The programs that are presented in this book are organized by School and credential type. Most of these programs are full-time day programs, and most full-time programs range from one- to two-years’ duration, depending on the program. Also, students in certificate and part-time programs have been included. Many of the part-time programs are predominantly night school courses and are usually geared for those already in careers. These programs typically show stronger employment outcomes than similar full-time programs. Please refer to the BCIT calendar for further program details.
# Contents

All Graduates

School of Construction and the Environment

**Certificate Programs**
- Boilermaker
- Carpentry Framing and Forming
- Carpentry Framing
- Construction Estimating
- Construction Operations
- Construction Supervision
- Electrical Foundation
- Electricity and Industrial Electronics Foundation
- Ironworker
- Joinery Cabinetmaker
- Metal Fabricator Foundation
- Piping
- Security Systems Technician
- Sheet Metal Worker
- Welder Foundation
- Welder Foundation (upgrade)

School of Energy

**Diploma Programs**
- CNC Machinist Technician
- HVAC & R Technician
- Industrial Instrumentation and Process Controls Technician
- Power & Process Engineering
- Telecommunications Technician
- Wireless Communications Technician

School of Energy

**Certificate Programs**
- Electronics Technician Common Core
- HVAC & R Technician
- Machinist
- Millwright
- Power Engineering
  - Power Engineering – General Program
  - Power Engineering – 3rd Class
  - Power Engineering – 4th Class
- Refrigeration Mechanic
School of Transportation

Diploma Programs
  Aircraft Maintenance Engineer
    Aircraft Maintenance Engineer: Category M – Maintenance
    Aircraft Maintenance Engineer: Category M Dorset
  Airline & Flight Operations – Commercial Pilot
  Airport Operations
  Automotive Collision Repair Technician
  Automotive Service Technician
  Automotive Service Technician – Dorset
  Aviation Maintenance Technician Avionics

School of Transportation

Certificate Programs
  Aircraft Gas Turbine
  Automotive Refinish Technician
  Automotive Technician Foundation
  Automotive Technician – Honda/Acura Foundation
  Automotive Technician - Toyota Foundation
  Diesel Engine Mechanic Foundation
  Heavy Mechanical Trades Foundation
  Motorcycle and Power Equipment Technician
  Railway Conductor
The Data Field terminology used in the program fact tables is defined below.

<table>
<thead>
<tr>

<tr>
<td>Age (yrs)</td>
<td>Age of surveyed respondents. Breakdown by age groups at time of survey.</td>
</tr>
<tr>
<td>Taken previous post-secondary education</td>
<td>Respondents who had taken previous post-secondary education and gave valid response. Respondents could report more than one type of post-secondary credential.</td>
</tr>
<tr>
<td><strong>EMPLOYMENT OUTCOMES</strong></td>
<td></td>
</tr>
<tr>
<td>In Labour force</td>
<td>Respondents who were in the labour force. The labour force includes people who were employed as well as those who were looking and available for work at the time of the survey.</td>
</tr>
<tr>
<td>Employment Rate</td>
<td>Those who were working in the labour market. Note: inverse of unemployment rate. BCSTATS web page “employment rate” results use the currently employed calculation.</td>
</tr>
<tr>
<td>Employed in a Job-Related Program</td>
<td>Respondents who were currently employed in an occupation that was either “very” or “somewhat” related to their past training. Further, graduates who enter an occupation related to their program have been shown (on average) to have a higher incidence of full-time work, and to have higher salaries than those in a job “not related” to their program.</td>
</tr>
<tr>
<td>Employed full-time</td>
<td>Those who responded that they were currently working full-time (30 hours or more per week).</td>
</tr>
<tr>
<td>Employed part-time</td>
<td>Those who responded that they were currently working part-time (less than 30 hours per week).</td>
</tr>
<tr>
<td>How Useful was Your Program in Getting Your Job?</td>
<td>Respondents for whom the program was “very”, “somewhat”, “not very” or “not at all” useful in getting their job.</td>
</tr>
<tr>
<td><em>(obtained after studies)</em></td>
<td></td>
</tr>
<tr>
<td><strong>How Long Did It Take You to Find Your Program-Related Job?</strong></td>
<td>Respondents for whom it took “less than one month”, “one to two months”, “three to four months”, “five to six months”, or “more than six months” to find their program-related job.</td>
</tr>
<tr>
<td>---------------------------------------------------------------</td>
<td>--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------</td>
</tr>
<tr>
<td><strong>Hourly Wage of those in training related job</strong></td>
<td>Mean (average) hourly wage of those in training related job main full-time or part-time job (valid responses only).</td>
</tr>
<tr>
<td><strong>Top 5 Jobs Obtained Related to Program</strong></td>
<td></td>
</tr>
<tr>
<td><strong>NOC</strong></td>
<td>The National Occupation Classification (NOC) is a systematic taxonomy of occupations in the Canadian labour market. The NOC has a structure at three levels: Major Groups (2 digits), Minor Groups (3 digits) and Unit Groups (4 digits). Results in this table are presented at the Unit Group level.</td>
</tr>
<tr>
<td><strong>Percentage Employed in this Program Related Job</strong></td>
<td>The percentage employed is the number employed in this program-related occupation out of all employed respondents. The percentage is broken out by NOC code and title. Relatedness is self-declared by the respondent.</td>
</tr>
<tr>
<td><strong>Median Hourly Wage (Main Job)</strong></td>
<td>Median (middle value) hourly wage of employed respondent’s main full-time or part-time job (valid responses only) broken out by NOC code and title.</td>
</tr>
</tbody>
</table>

**EDUCATION OUTCOMES**

| **How Satisfied Are You with Your Education?** | Respondents who indicated they were “very satisfied” or “satisfied” with their education. |
| **How Useful Were the Knowledge and Skills You Gained in Your Program in Performing Your Job?** | Respondents for whom the knowledge and skills gained from their program were “very”, “somewhat”, “not very” or “not at all” useful in performing their job. |

**SKILL DEVELOPMENT AND COLLEGE EXPERIENCE**

| **Skill Development How Well Are Students Prepared to:** | Percentage of respondents who felt skill development was applicable. Question changed to a 4-point scale in 2015. Those who responded “Very helpful”, “helpful”, “not very helpful” or “Not at all helpful” to the skills listed. |
| **Aspects of Program How Did Students Rate:** | Percentage of respondents who felt aspects of program were applicable. Those who responded “very good” or “good”, “adequately”, “poor” or “very poor” to the aspects listed. |
