

BCIT Peer Tutoring is moving online

- Use the [schedule](#) to decide which session you wish to join. Sessions are listed by subject, day, time, and tutor name
- Log into the [Learning Hub](#)
- Look inside My Courses > All to locate BCIT Peer Tutoring

This online space is about allowing you to access peer tutoring services through a desktop conferencing system used across BCIT to support online learning. Virtual Classroom is the tool you will use to connect with a Peer Tutor session online and is located in the navigation bar above. All tutorials are pre-scheduled drop-in sessions led by a BCIT Peer Tutor.

How to enter a tutoring session:

- When your meeting time comes, select ACTIVITIES > VIRTUAL CLASSROOM from the navigation menu at the top of the page
- If prompted, log in with your BCIT A0# and your password
- Select the desired tutoring session from the list and click on the session link to enter the virtual meeting room (note: if you click on Title the list will sort alphabetically by school).
- You will be taken to a page called MEETING LOBBY that provides information about the session
- At the bottom of the Meeting Lobby page, click on the button that reads ENTER MEETING ROOM. Note: the button must be blue for you to enter, and you cannot enter a room early.
- Follow the prompts to activate your microphone and camera if desired
- There will be a learning curve for all involved so we appreciate your patience with our tutors who are working hard to keep the service going for you. Unfortunately one-to-one tutoring is not available at this time.

Problems or questions?

- For technical and access problems, contact techhelp@bcit.ca
- For questions about tutoring or scheduling, contact learning_commons@bcit.ca

What about writing tutoring?

- Continues to be available online with WriteAway <https://writeaway.ca/>
