Policy Statement

BCIT allows controlled access to Institute interior and exterior locations for commercial production companies producing feature films, commercials, still photography, and general entertainment programs.

BCIT ensures that:

- These activities are conducted with minimal or no disruption to the Institute’s operations.
- Operations are conducted in compliance with industry standards and WorkSafeBC.
- The reputation and public image of BCIT are protected.
- All expenses associated with film liaison and other location services are recovered and remuneration is received.

This policy takes into account the complex requirements of film production companies in utilizing film locations, the physical resources of the campus that might be suitable for their requirements, Occupational Health and Safety requirements, security of assets, and the interests of students and employees. BCIT can terminate the Facility Access Agreement if the other party breaches any of its obligations within the agreement.

To ensure the privacy of staff, students and visitors on campus during filming, production companies will ensure that appropriate notices of filming operations are posted and handed to bystanders. The production companies will ensure all notices are removed upon completion of the production.
