RATIONALE FOR ON-CAMPUS ACTIVITY

Please provide a short description explaining the need for students to be on campus. Your narrative should be focused on the practical elements of the program or activity that are critical to achieving learning outcomes, and why on campus components cannot be replicated in an online or alternative environment (e.g. student bringing learning equipment home).

The Motor Vehicle Body Repair program will be delivered under the new blended format with the theory portion of the program delivered online. There is however a large portion of this program that's requires students to perform hands on in shop practical's such as Welding , Surface Preparation , Sheet metal repair to name a few . The practical component of this program is very important for students to gain the practical skills to successfully pass each course of the program. There has been a previously approved risk assessment carried conducted for room 100 , NE10 for the delivery of Welding Practical's for the Automotive department, cubicles were constructed to carry out practical's with a capacity for 8 students . The MVBR program will also be using the same cubicles in NE10-100 to conduct in shop practical's for students starting their programs in the fall of 2020.

CONTROL MEASURES

COVID-19 SAFETY PLAN: CONTROL MEASURES CHECKLIST

Directions for completing a Safety Plan:

1. First step of this process is to review the [BCIT COVID-19 Go-Forward Plan](#) as the overall planning document for this process.
2. Use this checklist as a tool to assess COVID-19 control measure preparedness for students and employees and the spaces they will be using. Refer to the [BCIT COVID-19 Go-Forward Plan](#) for standardized safety guidelines and procedures.
3. For each control measure, state the details. If the control measure is a 'No' or 'NA', please provide a brief explanation.
4. The manager requests all PPE requirements by submitting this draft Safety Plan to the PPE@bcit.ca.
5. Implement all the safety measures in this Safety Plan.

COVID-19 SAFETY PLAN ACADEMIC SPACES

6. The manager completes a site visit to ensure all control measures and safety supplies are in place.
7. The manager signs the completed Safety Plan and submits it to returntocampus@bcit.ca for approval.
8. Once approved, the COVID-19 Safety Plan is posted in all work areas identified within this plan.

Note: The workspaces cannot be used until all applicable control measures are in place and Safety Plan is approved. For additional resources the [Risk Assessment Controls Guidance and Hierarchy of Controls](#). For assistance email ssemohs@bcit.ca.
