This form is a program entrance requirement and submission with your application is mandatory.

ENTRANCE REQUIREMENTS

Please check each item acknowledging that you have read, understand, and agree to the following for the Automotive Service Technician and Operations program:

- I have attended a BCIT Automotive Monthly Information Session and/or have reviewed all BCIT Automotive training programs and have made this program choice considering the flexibility that it will provide me in my career as well as the rigor and dedication that will be required of me. I can expect a minimum of 2–3 hours of home study per day of training to be successful in this program.
- I understand my success in the program is depended on:
 1. Successfully completing the program by achieving a minimum passing mark of 70% for each course.
 2. Regular attendance of lectures, seminars, laboratory, clinical, and shop periods. Absence of 10% or more of the prescribed course length may result in failure of the course and an incomplete program. Prolonged illness of three or more consecutive days requires a Student Medical Certificate.
 3. Completing the mandatory co-op work terms requires a valid driver's license or a minimum "N" designation as an industry standard.
