# AUTOMOTIVE CAREERS FOR A COMPLEX WORLD.

BCIT

---

BCIT Automotive Technicians  
receiving hands-on training.

## WHY AUTOMOTIVE?

Taking an Automotive Foundation program at BCIT is a great pathway toward a successful career in the automotive industry. Our 30-week and 32-week Foundation programs open the door to becoming a skilled automotive technician, along with many other exciting possibilities.

**96%** employment rate for BCIT Automotive diploma and certificate graduates.\*

As cars grow more sophisticated, skilled automotive technicians are an industry must. As a BCIT automotive student, you'll learn enhanced skills that enable you to be job-ready when you graduate. BCIT has won awards for its automotive programming, including the prestigious Educational Achievement Award from the Transportation Association of Canada for the use of a 3D virtual car engine in training. The program also allows time for you to tune your own project vehicle.

## CAREERS IN THE AUTOMOTIVE TRADES

### [Auto Technician Foundation](#)

This full-time 30-week program explores the key areas of chassis technology, repairs, electrical and electronic diagnostic skills. You'll gain experience on all makes and models of vehicles. When you graduate, you will be able to challenge the first level of a Red Seal credential.

### [Auto Technician Foundation \[Honda + Acura\]](#)

In addition to the areas covered in the basic program, this full-time 32-week program, in partnership with Honda, includes supplemental brand training. You will be able to gain applied experience with a Honda or Acura dealer.

### [Auto Technician Foundation \[Toyota\]](#)

In addition to the areas covered in the basic program, this full-time 32-week program, in partnership with Toyota, includes supplemental brand training. You will be able to gain applied experience with a Toyota dealer.
