

# STUDY ABROAD BY DESIGN – WINTER 2021

Build a custom program by selecting up to four courses from one or more program areas. BCIT offers daytime classes ('Full-time Studies') and open enrollment classes in the evening and on weekends ('Part-Time Studies') in the Winter term. Study Abroad students can take courses from both our full-time and part-time studies catalogue. Please note that some courses might have prerequisites, that the course offering is subject to change and that acceptance into the requested courses is on a case by case basis.

## HOW TO CHOOSE YOUR COURSES

There are three different levels available in Winter: Level 2, Level 4 and the Bachelor level. Here are some general guidelines:

Level 2 – first or second year of university

Level 4 – third or final bachelor year

Bachelor degree (level 7000+) – recommended for international master students

For the best student experience, we recommend you to first look at one full-time program that best suits your academic needs and record the courses you might be interested in. Look again at all the other level 2, 4, Bachelor, and part-time studies courses to supplement your course selection.
